

"A FAIR DEAL FOR NORTHERNS!"

The Liberal Party in Ontario, states Leader Robert Nixon, is determined to get a fair deal for northerns. The Liberal Party is the only party which has made Northern Ontario one of its priorities, and the Liberal Party is the only alternative to the Davis government at the present time.

The Liberal Party's commitments to Northern Ontario are spelled out in the CAMPAIGN '75 BULLETIN mailed out to every household. Some aspects of the program for Northern Ontario are -- upgrading northern roads and highways; relocating the Ministry of Natural Resources' head office in the north; reducing the tax on gasoline by 5 cents; initiating an income tax credit for northerns to offset higher costs of living in the north; increasing housing starts, and promoting serviced land. These are some of the things planned especially for the North.
