ONTARIO PROVINCIAL POLICE PRESS RELEASE

All motorized snow vehicles have to be registered with the Ministry of Transportation

and Communications.

Your local license office has the permits available at no cost providing you are not operating your snow machine on a highway or public trail. Highways also include your local streets.

Once you obtain your permit your registration number is on the top right corner of the permit and you have to put this number on both sides of your cowling approx. 4 to 6 inches from the rear of the cowling and the numbers can be painted on or adhesive numbers may be used.
