condition. Phone 824-2765

### Freezer Loading

If you have a 12-cubic-foot  
freezer, you can put in 36 pounds  
of frozen food. When you've add-  
ed that amount, wait 24 hours  
before adding more—for max-  
imum efficiency. Keep the same  
foods together in baskets or on  
shelves. Foods also may be  
organized in heavy plastic or  
mesh bags. Rules for loading a  
freezer are designed to keep the  
freezer temperature at zero  
degrees or lower and to keep food  
rotating properly for maximum  
flavor and nutrition.
