

the NEW KOEHRING

1066D

strong on performance

cranes that handle jobs of all sizes and types... profitably

Heavy lifts, up high and far out. In crowded urban areas or on rough terrain. Everything you need for crane work is available from your Koehring-Waterous distributor. He carries the Bantam[®], Koehring[®], and Lorain[®] lines — 28 models in all. It's the widest choice of types and sizes in Canada!

Choose from a wide variety of cable cranes — carrier-mounted, crawler-mounted, and self-

erecting towers — with lift capacities to 150 tons (136 100 kg). Or choose from a big selection of carrier-mounted and self-propelled hydraulic cranes, capable of lifting up to 75 tons (68 040 kg). All designed for efficient, high production operation.

Whatever your lift and reach needs, there's only one man to see. Your K-W distributor.
