Bicycling has changed, and so have bicycle safety rules.

This is what Ontario is doing to bring bicycle safety up-to-date

Over 2 1/2 million bicycles in Ontario today. Last year, 56 bicyclists were killed on Ontario highways, and 3,720 were injured.

Too many.

To make yourself and your family safe, learn the simple rules and guidelines of bicycling. Obey all stop signs and traffic lights. Keep your bicycle safe. A bicycle is, by definition, a vehicle under the Traffic Act. After all, you don't just "ride" it, you drive it. And Ontario wants every bicyclist to ride safely.

The Ontario Ministry of Transportation and Communications has prepared 3 easy-to-read booklets that every bicyclist should read. "The Bicyclist's Handbook,"

"Ontario Laws and Your Bicycle," and "How To Be an Expert Cyclist."
