**your week ahead****BY DR. A.W. DAMIS****Forecast Period: May 30 to June 6**

Getting to the point, prepare for delays, postponements and untimely interruptions. Make no promises that you knowingly cannot fulfill.

Many under your sign will be blessed with the good fortune of having a second chance. Meaning? A project you have neglected, will be revived.

Sharp, cagey and cunning; that's the terms that best describe most members of your sign. So, put your persuasive powers to work, during this cosmic cycle.

This week, put wishful thinking where it belongs. Don't be led down any garden path by a fast talker who wants to give you the "whole world."

You're not one who takes romantic gestures, lightly. Nevertheless, you must dismiss certain overtures sent out by a member of the opposite sex.

Personal magnetism and the ability to persuade, seems to be in the scheme of things, for Libra. You'll have your own way, during this cosmic cycle.

Through your own effort, you'll face greater tasks and pressures. Meet things "one by one" and keep on plugging. Long delayed gains should materialize, this week.

You might be at odds with your boss or superior. Take the philosophical attitude that: You can't beat City Hall. Guard your words, a set back is possible.

According to your chart, you could be heading toward a few financial problems. Name one? Spending too much money on a pet project or hobby.

A member of the opposite sex might silently accuse you of shaping into a different personality. Apparently, your attention will be drawn to things other than affairs of the heart.

It's a certainty that most Aquarians will play the part of the martyr on vacation plans. Take what is due you, even though your co-workers or relatives object.

Feel secure in the knowledge, your ability for making decisions is nearing its peak. So, take advantage of this favorable influence; meet this week's problems—confidentially!
