## Not many employers offer beginners good pay, plenty of travel and 4 weeks vacation.

The Canadian Armed Forces is not your usual run-of-the-mill job opportunity.

To start with, there's the pay. When you consider how little it costs you for food and lodging, it's easily as much as trainees make in most other jobs. And after you finish training, you start getting regular increases.

Then there's the travel. This is a job that could take you anywhere in Canada — or out of it for that matter.

And finally there's the opportunity to learn. Not just about sophisticated equipment, but about the world and where you fit into it.

Add it all up then ask about immediate vacancies in the Canadian Armed Forces.

Unless you've had a better offer recently.
