

SCHOOL NEWS: Cont'd from pg. 7

GEOGRAPHY FIELD TRIP:

The bottom was composed of rock flour (a fine sand created by the glaciers) with streams of water running through it creating miniature land forms. It also creates a material that acts somewhat like quicksand. In the process of investigation almost all of the students got muddy. We proceeded to Neys Park.

The class hiked to the eastern point of the park. There were signs of glacial erosion on the rock. Also found were old boots belonging to former prisoners of war.

The class followed a grown over trail, used by the miners of the Old Empress Mine. Empress Mine was a gold mine. With our flashlights, we were able to see the vein of rock that was being mined. The vertical shaft was fifty feet in depth and full of water. After the discovery of the bats, and being very wet, the majority of the females decided it was time to leave, beating a hasty retreat to the bus.

CY BRASSARD TO RUN FOR REEVE: Cont'd from pg.6
She felt it would help the public to know how many new councillors they may need to nominate and elect. November 15th will be Nomination Day.

Councillor C. Brassard declared his intention to run for Reeve. Councillor J. Kennedy will not run for re-election this year. Peggy Helmink has declared that she will not run at this time. Councillor Hale will run but has yet to decide for what position.

Committee reports were heard next. It was decided to discuss the Curling Club rental rate at the October 13th meeting and to arrange with the Curling Club executive for October.

C. Hale was concerned regarding the safety precautions taken by the Construction Workers in the town.

C. Brassard reported on the Recreation Centre. It was decided by Council to run a newspaper advertisement for a full time Rec. Centre Caretaker.

Complaints regarding holes in town streets were brought forward by C. Brassard. It was suggested that gravel be placed in indentations in the streets in question.

Councillor J. Kennedy suggested that a definite arrangement regarding chairmanship of the meetings until December be formed in the absence of Reeve Roy Bray. The Councillors agreed to each chair one month of meetings until the elections.

P. Helmink brought a request from the Fire Dept. to the attention of the Meeting.

The Inspection of Public Buildings is usually done by two men over a two day period. However, for the benefit on new men to the Dept. they would like to have the Inspection done by four men in one day. Council agreed to the request.

The Department also applied for approval for two men to attend a Regional Fire School in Thunder Bay. Council could not include the request in this year's budget but recommended that it be planned into the budget for the following year.

A motion to sponsor a Social Hour at the Fire Dept's Spring Conference was carried.

Plans for the Town Council Christmas Party were discussed and with a little gentle persuasion Joe Kennedy volunteered to M.C. the party.

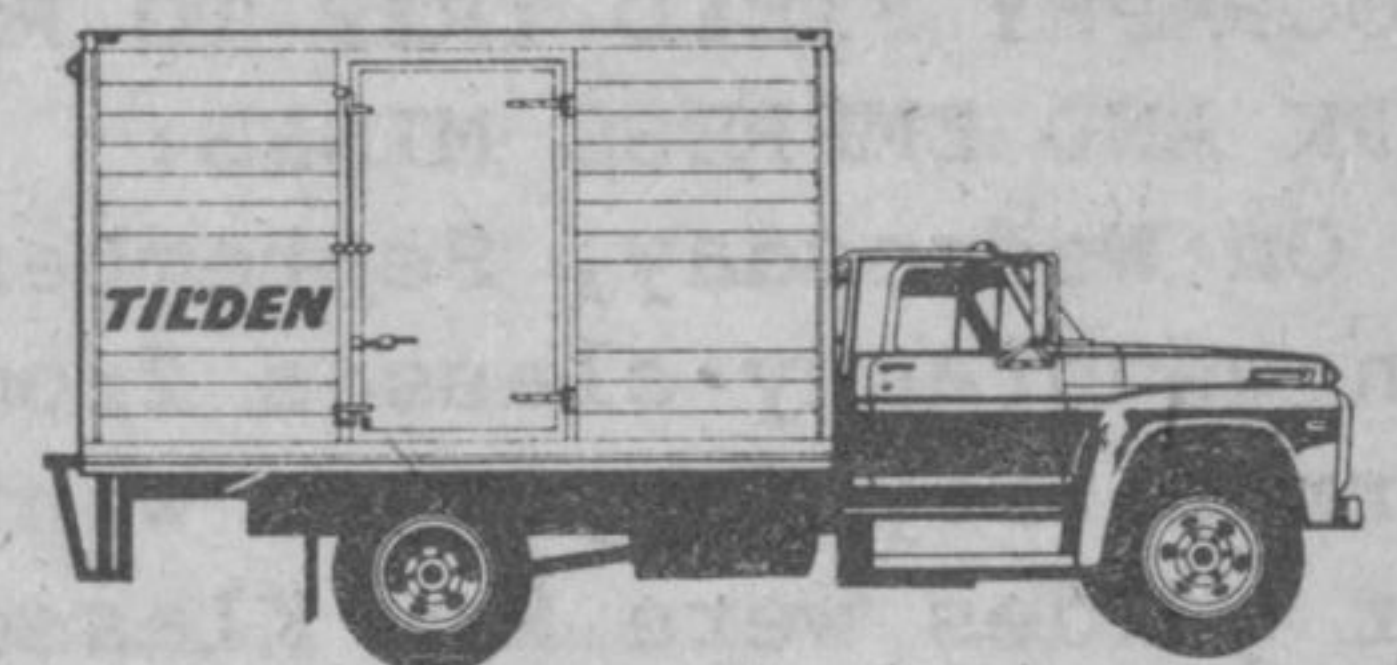

The Town Council adjourned to meet again October 13th.

WOMEN OF THE MOOSE MEETING:

The Women of the Moose held their meeting on September 21 with Senior Regent Marielle Tardif in the chair. In the absence of Helen Almos, Sadie Benko was recorder. New members were welcomed into the Chapter. Marg Walterhouse won the pot of gold and Mrs. Tanguay won the raffle. Aline Hart and Yvonne Rochon served lunch.
