Reeve McParland spoke on local matters, the need for assistance in providing more homes in Schreiber, and for a new arena - in this latter instance a committee is already formed and working for funds.

The project for a Senior Citizens Home complex in the centre of the town has already been studied and it is hoped work on this will begin next summer.

Mr. Allen said interest in the Legion is not going down, as shown by the five thousand and twenty-six registered delegates attending the 50th Anniversary Convention, the 7,600 at the dinner requiring 400 waitresses. Regardless of the Government in power, Legion delegations have always been courteously received. Resolutions sent to the Command are given serious consideration and the committee ACTION (Action to Improve Our Nation) has been formed.
