

OPEN LETTER TO THE EDITOR: From pg. 6

Has he not read, "The Silent Spring", by Rachael Carson?

Unfortunately this incident is one of a series of cuttings occurring in this general area but, it is by far the most serious. Are we, citizens of this attractive community, going to sit idly and mutely by and allow this desecration of nature to continue?

As one who loves and respects Nature, I abhor this wanton destruction; I abhor those who in madness and bearing the mighty power-saw destroys in moments what Nature took decades and even centuries to accomplish.

Perhaps the perpetrators of this destruction, this awful waste, may live to rue the day.

Not many employers offer beginners good pay, plenty of travel and 4 weeks vacation.

The Canadian Armed Forces is not your usual run-of-the-mill job opportunity.

To start with, there's the pay. When you consider how little it costs you for food and lodging, it's easily as much as trainees make in most other jobs. And after you finish training, you start getting regular increases.

Then there's the travel. This is a job that could take you anywhere in Canada — or out of it for that matter.

And finally there's the opportunity to learn. Not just about sophisticated equipment, but about the world and where you fit into it.

Add it all up then ask about immediate vacancies in the Canadian Armed Forces.

Unless you've had a better offer recently.
