# Why does she bring her savings to us?

Every payday, I make it a habit to save a little. Just a little. But regularly. It's a nice habit and it's easier to get into when the teller gives me a nice big smile. It's the same kind of smile I'd get if I'd gone out and bought something. Except I feel even better because I haven't spent my money at all. In fact, I've put it in a place where it will earn interest too.

Deposit something - or open a savings account this week - and prove to yourself how good it feels to do something really sensible with your money.
