

THE CAROLINE McMORLAND SCHOOL TORONTO TRIP:

After many months of fund raising and planning, eight students and four chaperones from the Caroline McMorland School left for Toronto on Sunday, May 29th.

Travelling in a twelve-passenger van the group spent the first night in Sudbury. Arrival in Toronto was exciting as the students competed to be the first one to spot the CN Tower.

On the first evening, four students and two chaperones joined the Marathon Public School grade 8's at Exhibition Stadium for a game between the Toronto Blue Jays and the Kansas City Royals. The remainder of the group spent the evening exploring downtown and riding the subway.

The first full day of touring took the group to Queen's Park, on a tour of the new Eaton Centre, and a visit to Beverly Street School. The day was rounded off by a leisurely swim back at the Hampton Court Hotel (formerly the Four Seasons) where the group was staying.

The second day was spent in the exotic surroundings of the Metro Zoo. The lion and the otter topped the list of favourite animals. After leaving the zoo, the group travelled to Brampton and were guests at a barbeque at the home of Mrs. Marion Burke.

The highlight for most of the students was the CN Tower which proved to be just as exciting as anticipated. Moving on to Ontario Place, the students enjoyed the Children's Village and the show at Cinesphere. The group boarded a cruise boat at the Ontario Place Dock and had an interesting tour of Toronto harbour and islands. The day was topped off by a delicious supper at the Old Spaghetti Factory.

The last day took the group to The Ontario Science Centre to see the many exhibits and experience the fun of the Arcade.

A tired but happy crew left Toronto on June 4th, spent the night in Sault Ste. Marie and arrived home on June 5th. Chaperones on the trip were Cheryl Dixon, Geoff Bertin, Elgie Stoddard and Gail Conrad.

Students and staff are grateful to The Lake Superior Board of Education and especially the people of Marathon for their tremendous support which made the trip possible.
