Everyone welcome.

A central core with moveable wings.

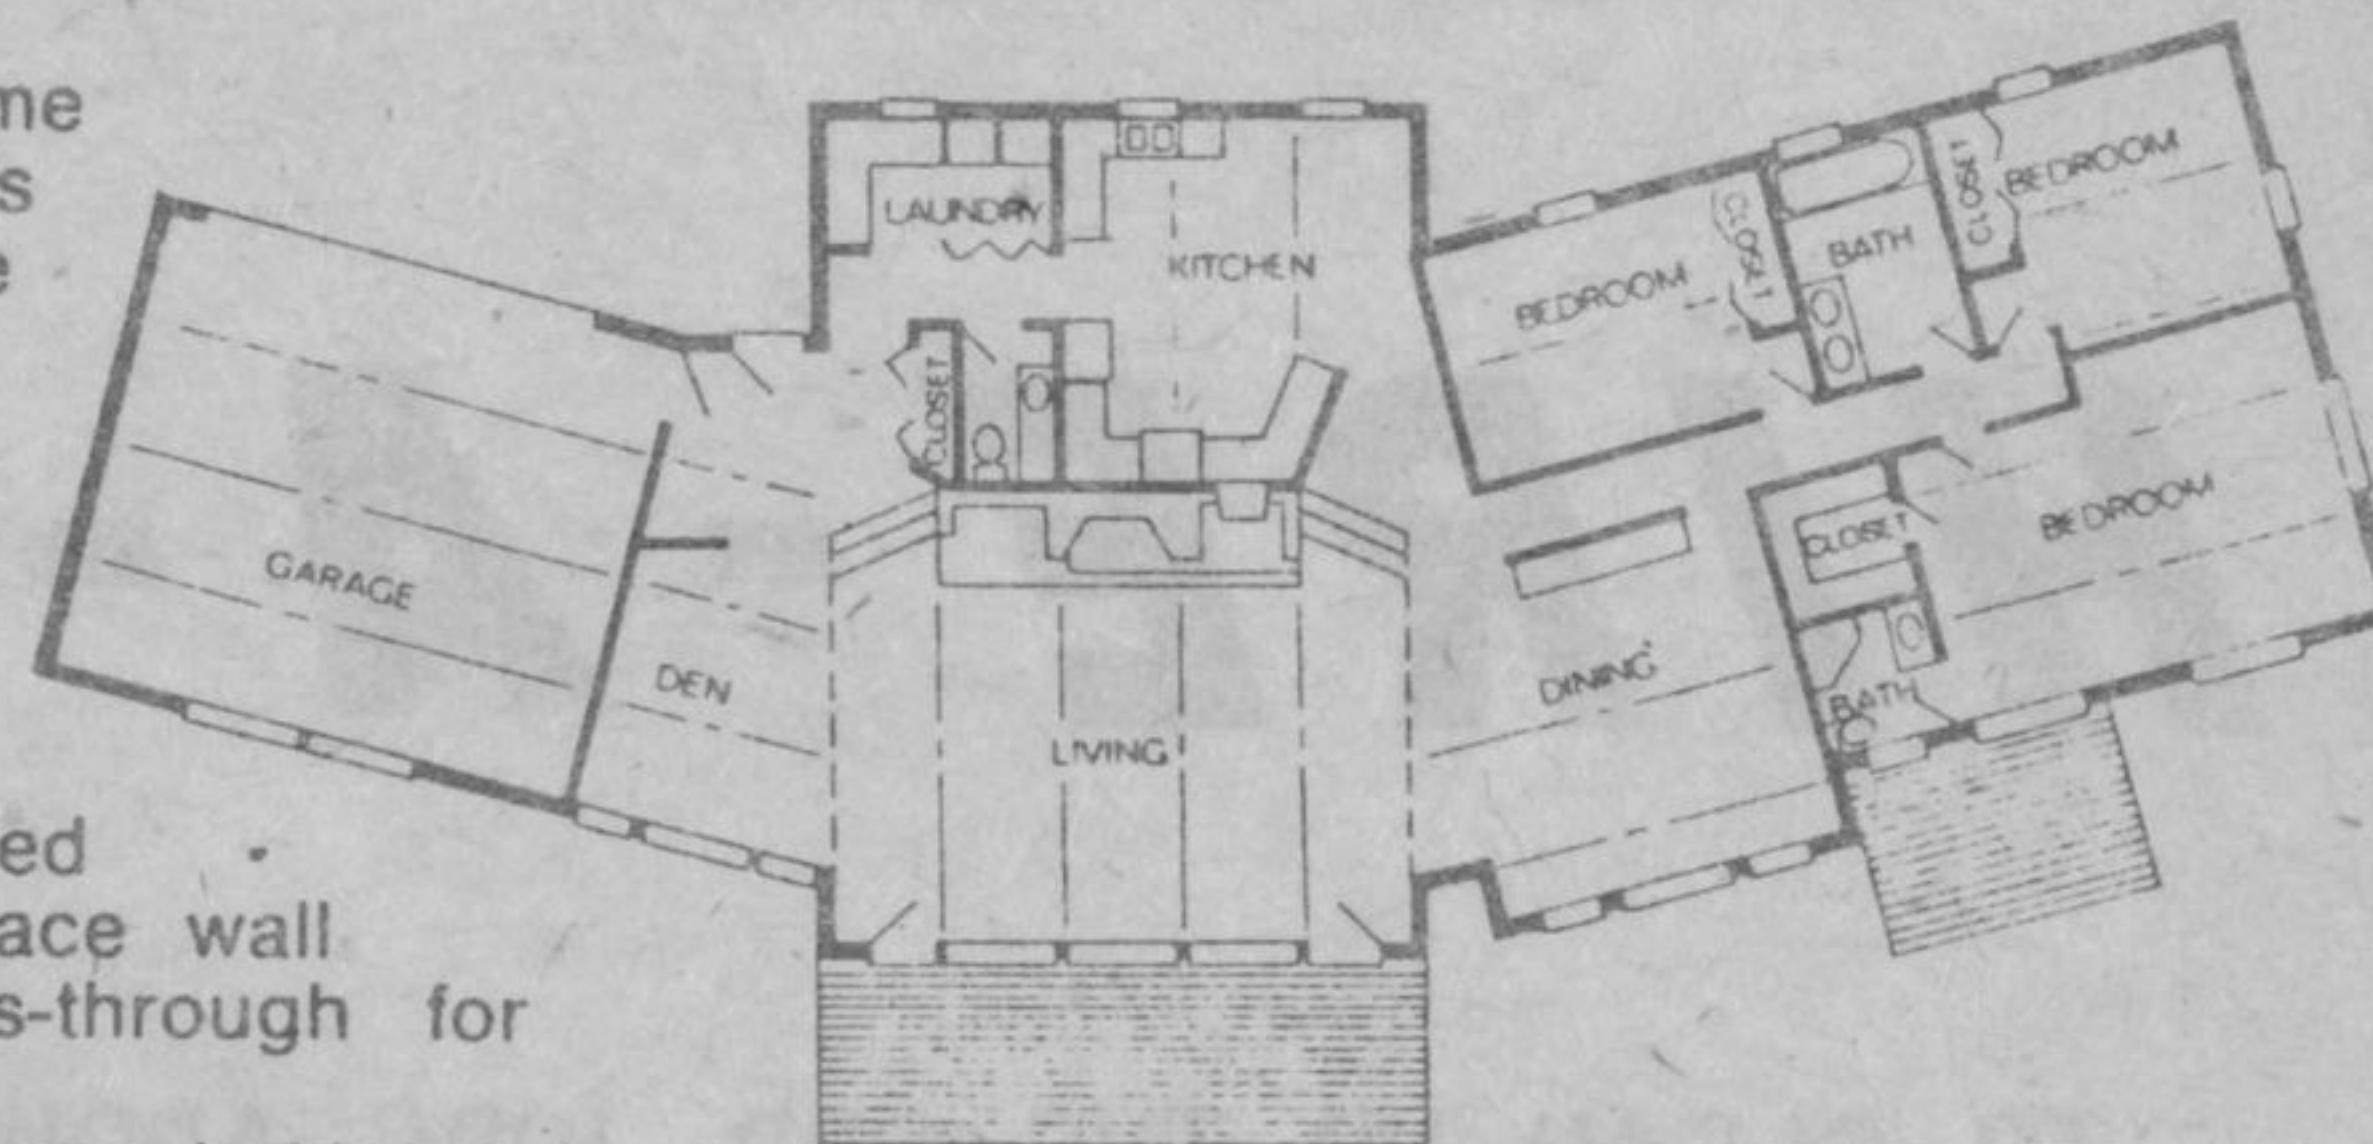

This single-story cedar-home design is as roomy as it is versatile—a welcome respite from today's mass of confining split-levels.

Ideal for the family that enjoys entertaining, its core or "center stage" features a spacious sunken living room with exposed beams and a huge fireplace wall (including a kitchen pass-through for hearthside snacks).

"Off-stage," one wing is occupied by an inviting entryway, a den and garage, while the other is devoted primarily to bedrooms. And both wings (the entire plan, in fact) can be tailored to suit individual needs. They might, for example, be joined at a sharper angle to accommodate a narrower lot.
