ONTARIO SPORTS TRAVELCADE TO VISIT TERRACE BAY AND SCHREIBER SEPTEMBER 11th - 13th

The "heart" of the Ontario Sports Travelcade is the mobile resource centre. As well as carrying hundreds of publications and audio-visual presentations, the 45-foot trailer provides a site for clinics.

The Ontario Sports Travelcade is a project developed by the Sports and Fitness Division of the Ministry of Culture and Recreation. It was developed with the co-operation of more than 82 Province of Ontario sport governing bodies.

Included is a 45 foot van, designed to tour the province on a year-round basis, with particular attention to smaller communities not presently well served with opportunities for access to information on sports and recreational games.

The van is outfitted with a wide range of audio-visual hardware and has a capacity for simultaneous screenings on more than a dozen motion picture, video-tape and slide cassette screens.

Also included is a library of more than 600 books, 120 motion pictures and 200 video cassettes.

The van will be staffed by young people with specialized knowledge of organization and experience in the gamut of sports and recreation activities.
