You're comfortable now, but what happens when you retire?

It's difficult to think about retirement during the relatively affluent working years. But wise people do. They plan now. They build a retirement fund that will enable them to retire comfortably. Consider a Sun Life Registered Retirement Savings Plan. It's an excellent way to save, and it has the added benefit of allowing for substantial tax deferrals right now. Think about your retirement, then call me. I'll help you plan for it.
