

LAKE SUPERIOR PUBLIC SCHOOL INVOLVED IN PROJECT CANADA:

The grade four class from Lake Superior Public School is presently sending letters to the grade four children of Cremona Public School in Alberta as a part of Project Canada, sponsored by our Provincial Ministry of Education.

This program will help the children in each community learn about the other through letters, projects, films and tape recordings. Although only letters have been sent, so far, it is hoped that other activities will reveal the cultural, historical and economic aspects of our lives in Terrace Bay.

Worth watching

Keeping a watchful eye on your meter can help you save electricity around your home—and we have a free booklet to help you do it.

It lists many wise ideas for saving electricity in lighting, heating and appliances. In addition it shows you how to read your meter and keep a record of the progress you're making in energy conservation.

The booklet, "Worth Watching" is yours for the asking from your local Hydro.

Or write to Ontario Hydro, Dept. W, 700 University Avenue Toronto, Ontario, M5G 1X6

Get by with less.

your hydro

Your eyes are important! Wear protective glasses or equipment when necessary in sports or such activities as welding.
