Are you hiding money in your house?

Most homeowners are. Enough money for something big! Enough for a new car; that boat or camper you've been dreaming about. Big money to add that new room to the house. Or refurnish the family room.

You've probably established more than enough EQUITY in your home for a big loan from Avco. EQUITY — that's the difference between what you owe on your house and its present value. It's like money stashed away, to use for

whatever good reason you may have.

So visit your Avco office today. We'll figure out your equity and tell you how much money you've got hidden away.
