

**PINEWOOD-BIRCHWOOD AUXILIARY MEETING:** From page 9 ...  
 Notice would be given in advance and Gertrude Cotton offered to arrange schedule.

Mina Mahoney, Director of Activities, informed the Auxiliary a talking book had been donated to Birchwood Terrace by the Public Library as part of their Wintario grant. The residents are enjoying their morning Story Hour through these books. The Library is also getting in a good supply of large print books and many more residents are reading now.

The next meeting will be held Thursday evening, March 9th at 7:30 in Birchwood Terrace.

**NEYS PROVINCIAL PARK PLAN  
 PRESERVES NATURAL SETTING**

More than 90 per cent of Neys Provincial Park on Lake Superior's northern shoreline will be preserved as a wilderness zone, according to a master plan for the park released by Natural Resources Minister Frank S. Miller.

"Neys Provincial Park is now classified as a natural environment park with the major portion of it zoned as wilderness," Mr. Miller said. "It offers a wide variety of outstanding recreational opportunities in a unique setting that characterizes the north shore of Lake Superior".

Existing development is limited to the park periphery where car-camping and day-use facilities are available to local residents and tourists. To further preserve the environment, future development will be restricted to a system of hiking trails and walk-in campsites.

The master plan also calls for upgrading of the park's visitor services program and development of a visitor service centre.

The 3,260 hectare (8,052-acre) provincial park is 25 kilometres (15 miles) west of Marathon and one mile off Highway 17. It occupies the rugged Coldwater Peninsula which juts into Lake Superior from the north shore.

The park is visited annually by 30,000 area residents and tourists and provides 149 camping sites in three areas.

Copies of the master plan are available for \$2.00 from the Ontario Government Bookstore, 880 Bay St., Toronto, Ontario, and the Terrace Bay and Thunder Bay District Offices of the Ministry of Natural Resources.

**Lakehead School of Hockey**

The saying goes, "you're not getting older, you're getting better". The Lakehead School of Hockey is getting both older and better as it approaches its TENTH season of operation. This year the School will operate two, two-week sessions. The first gets under way from August 7 to 19 and the second session goes from August 21 to September 2nd.

Once again the Port Arthur Arena is the site of the summer program. Last year conditions were the finest experienced since the School began. This season, because of the demand to have the School at a later date, it was moved back two weeks. Now, young players registering won't have to wait long before they're out with their teams practicing the skills taught at the School.

HAVE YOU TRIED OUR  
**LUNCHEON  
 SPECIAL**

EVERY WEEKDAY

**11:30 a.m. - 2:30 p.m.**

If not, all of us at the Red Dog Inn invite you to come and see for yourselves. We know we have something for your taste on our menu.

**NODC's business  
 is to help your business  
 be successful.**

**For financial advice and  
 assistance, see your visiting  
 NODC consultant.**

The Northern Ontario Development Corporation's objective is to stimulate industrial growth, encourage economic development and increase employment opportunities.

**If you are involved in**

- secondary manufacturing
- a service industry supporting manufacturing
- tourist operation
- exporting

**If you need money to**

- expand present operation
- establish a new product or technology
- finance your exports
- install required pollution control equipment

**Talk to your NODC consultant right now!**

Here's the visiting NODC consultant's schedule.  
 To set up an appointment contact:

**MARATHON MARCH 2 AND 3**
