

## NORTHERNER CONTESTS FEDERAL LIBERAL SEAT

Gaetan Ouellette presents himself as a candidate at the Cochrane Liberal Association Nomination Convention. Gaetan is highly qualified to seek this office.

Gaetan's roots are firmly rooted in Cochrane. His family connections with this area dates back to the early 30's when Mathias Ouellette settled in Harty. There he owned and operated a General Store and was a wood contractor. His extensive extended-family is presently engaged in varied

professions throughout the area. His maternal grandparents arrived in the area in 1922 and eventually Antoine Ouellette settled with his family on a farm--Ouellette's Bay, Remi Lake, which is also Gaetan's home.

Gaetan was born in Kapuskasing, and raised in Harty. He attended the former Academy d'Youville and Kapuskasing District High School where in 1970 he earned his Ontario Secondary School Honour Graduation Diploma.

From 1970-74, Gaetan was studying at the University of Ottawa where he not only earned his B.A. in political science and French but took many and varied courses to satisfy his global interests.

Gaetan's success at the University of Ottawa lead, in 1974-75, to his being chosen as the Canadian representative to the European Institute of International Superior Studies in Nice, France. At that time he was the recipient of two scholarships from the Centre of International European Formation. While in France and Belgium, his studies included international relations, international organization, diplomacy and public international law.

In 1976-77, Gaetan studied radio and television from the National Institute of Broadcasting.

This past winter, Gaetan has been at Queens University where he earned his High School and Elementary Assistant Teaching Diploma.

Gaetan's political interests were kindled while in high school through his involvement in School Councils and as founder and chairman of the Young Liberal Association. This interest was fanned through active participation at political conventions. While in Ottawa, Gaetan spent much of his leisure hours either in the House of Commons or studying complex governmental publications. Upon his return from Europe, he was elected Vice-Chairman of the Canadian World Federalists Association for the Ottawa Branch.

To finance his studies and expand himself further, Gaetan became involved in varied phases of the work force. While in Kapuskasing he worked as a clerk at Perkus Limited and as a labourer for Spruce Falls Power and Paper Company Limited. In Ottawa, his jobs ranged from waiter to terminologist.

In 1971, Gaetan launched a part-time military career when he

joined the Governor General's Footguards. He is still a member of the Canadian Reserve Armed Forces. Besides his general military training, and specialized trade, he was appointed to varied administrative positions. In 1976-77, he was asked to serve as Regimental Paymaster.

In 1974, Gaetan was hired by the Department of Manpower and Immigration in personnel administration with security clearance.

In 1975, he worked for the Department of External Affairs, Canadian International Development Agency in the personnel registry and the Commonwealth section.

In 1976, he was Terminologist, documentalist for the Department of Secretary of State.

Besides his military and departmental experiences, Gaetan served as residence counsellor, library clerk, and computer programmer while at the University of Ottawa; counsellor for Education Canada; assistant coordinator and sport specialist for the Department of Recreation, city of Vanire; volunteer probation officer for the Ministry of Community and Social Services.

Gaetan has trained hard and long, and is prepared to accomplish the difficult task of serving his people and his native North as their Federal Representative in Ottawa. He is young, energetic and free to expand needed time and energy to bring Cochrane special needs to Ottawa and have them fulfilled.

Being a Francophone and a Federalist, he is also committed to preserve Canadian unity.

## CANADIAN CANCER SOCIETY

A meeting of the Schreiber Cancer Society was held on March 3rd at which time the annual campaign was discussed. A door to door canvass will be done on the week of April 10th to the 15th.

We need your support to make the campaign a success. Please give generously so cancer can be beaten.
