

COCHRANE FEDERAL CONSTITUENCY ASSOCIATION: From page 15 ...

The greater part of the Riding lies north of Highway 11. The true North, where the largest communities are on the scale of Winisk, Attawapiskat, Ogoki and Fort Albany. It is an area which in part has been largely ignored. But an area into which industrial development has begun moving at an ever accelerating pace. The last untouched corner of Ontario's treasure house of natural resources.

This massive riding extending from the American border on Lake Superior to the Northwest Territories, from Nipigon almost to Timmins presents a virtually impossible task for anyone to adequately represent. Its 165,000 square miles and its diversity of people and industry will provide the measure against which to judge the performance of those who have been its Members of Parliament in the past and the commitment of those who want to be its Members of Parliament in the future.
