

RECREATION REPORT: From page 6 ...

would be very valuable to the success of these programmes.

TENNIS CLINIC:

The Terrace Bay Recreation Department again this year is very interested in sponsoring a tennis clinic under the auspices of Tennis Unlimited. This clinic will be operated by professional tennis instructors in the early spring.

This year the clinic would include instruction for novice, beginner and more advanced players, using such equipment as ball machines for stroke development and stroke analysis. Another useful teaching aid that would be used at this clinic is a video tape re-play machine which enormously helps players to understand the development of their strokes. It is one thing to be TOLD what you are doing wrong - it is quite another to actually SEE what you are doing wrong. Interested tennis players or prospective players should contact the Recreation Office for further information on this clinic.

HORSESHOES, ANYONE?:

We would like to develop new sports in Terrace Bay and one sport that has come to light is Horseshoes. We at the Recreation Office would be quite willing to set up a Horseshoe league if people would contact us and give us their opinion. Call 3542 now and talk it over. If there are any other activities that you would like to see operating in Terrace Bay, call us about that too.

BALL HOCKEY:

Some of the fellows who played No Body-Contact Hockey this winter are ready to play skateless hockey (Ball Hockey). As soon as the floor in the arena is dry, we will commence play. Contact the Co-ordinator periodically to see when this will start.
