CONSULTING SERVICE FOR SMALL BUSINESSES:

Low cost management consulting services for small business is being made available this year through the Ministry of Industry and Tourism's Small Business Assistance Program (SBAP). The program will involve 120 university business administration students supplying counselling services to small business from May through August. Counselling by the graduate students covers such areas as cash management and financial planning, bookkeeping systems, production scheduling and cost control, marketing, and marketing research, distribution and promotion.

Last year, 838 consulting assignments were completed for 764 companies. Although the typical company that received assistance was small, the combined contribution to Ontario's economy is significant. Student's work is closely supervised by university faculty and is supported by services available from the ministry. As it is not intended this service compete with private consulting firms, businesses eligible for the service must not be in a position to engage professional consultants. Cost of the service is borne by the ministry, although a nominal fee is charged to the businesses using it.
