

TIPS ON LAWN MOWER SAFETY

Are you up-to-date on lawn mower safety? If you're not, you're dangerous to yourself and to others around you. Here are some safety tips from the Outdoor Power Equipment Institute for using a rider power mower.

1. Know what you're doing. Start by reading the instruction manual so all the maneuvers your machine makes come out right the first time.

KEEP ARMS AND feet away from moving parts when starting up the engine.

2. Test the controls—especially the ones that let you stop fast in an emergency.

3. Clear the area of kids and pets—you never know when they can dart in front of you or when objects might be thrown by your machine.

4. Keep your arms and feet away from moving parts when starting up the engine.

5. Make sure the engine has completely stopped before making repairs, refueling or storing. Remove spark plugs for extra safety.

Safety know-how and a little common sense can mean a beautiful lawn and a safe season for you.
