EXPERIENCE '78 - PROGRAM 0701

There was an overnight camping trip taken on August 14th and on August 11th a bike trip to Hayes Lake, where the people relaxed a bit to do some fishing.

The program finishes on August 18th, with the summer being successful for the initial year.

This program is expected to be run again next year and to be bigger and better.

WILDERNESS - YOUNG CANADA WORKS

Last week a three day camping trip brought this program to a close for some ten young outdoor enthusiasts.

The persons going through this years program will receive a crest indicating the basic level completed.

Through out the winter, plans will be made for the next level and more study on the basic category.

RECREATION SURVEY - YOUNG CANADA WORKS

Survey forms are still being passed out and collected by the three girls working on the project.

The return rate is remaining around 60% which is very good.

Information from the forms will be documented and made public.

Again, the data on the forms is very interesting and will give us a clearer path on which to travel.

I just remind you that all will not be done overnight and other suggestions will require study and considerable planning.

COMMUNITY TENNIS TOURNAMENT

The senior tournament will be held August 19th if all are available.

MINOR BASEBALL

The Railway Division baseball team is still practising in anticipation of a tournament in Terrace Bay in late August.

There is a possibility of hosting a tournament here in Schreiber in early September.

BEAVER PACK

We have just reached a

contact person for information on the organization of a Beaver Pack for boys aged 4 - 6 years.

Once this data is received the next steps will be taken in order to get the program moving.

CONFEDERATION COLLEGE

Programs offered through the college will be run in Schreiber for 1978-79.

Tentative months have been established for most programs and the college will publish a list of programs and dates, times, place, instructor in the next few weeks.

Some requested programs such as judo, upholstery, are taking additional time because of trying to locate instructors.

SPORTS TRAVELCADE

A Ringette Tournament will be held on Sept. 9 - 11th in

Why does he bring his savings to us?

Well, they're all the same aren't they? A bank is a bank. But then maybe there's something to the idea that the older an outfit gets the better it gets. Like, every time I visit a Bank of Montreal - and they're everywhere - I can see that the tellers all went to the same school. They know what they're doing, they don't keep me waiting in line and when it's my turn, they're pleasant and efficient.

Deposit something - or open a savings account this week - and prove to yourself how good it feels to do something really sensible with your money.
