

Notice of Public Hearing

Ottawa, August 24, 1978

ISSUE NO. 1

THUNDER BAY, ONTARIO

OCTOBER 17, 1978, 9:00 A.M.

In its public notice dated May 18, 1978, "Broadcasting Service to Small Remote Communities", The Commission issued a call for applications and indicated it would hold a public hearing in Thunder Bay, Ontario, to consider applications and comments.

The Commission will hold its Public Hearing in two parts. The first part of the hearing will be devoted to general comments as to how broadcasting services may be improved in remote communities and the issues involved. The second part will be devoted to the presentation of the applications and the interventions.

The applications for Northern Ontario submitted by Mr. David Brough, as indicated in the Commission's May 18, 1978 Public Notice, will be heard in the second part of the hearing, together with all applications received in response to the foregoing Public Notice.

In the May 18, 1978 notice, the Commission stated that it would wish to consider 10 criteria identified in the notice, in assessing such applications. In order to give this matter the widest possible consideration, the Commission has decided to hear all applications proposing service to remote communities in Northern Ontario even though some of the applications are incomplete.

In view of this, documents to complete proposals submitted, will be accepted up to the time applications are heard, provided such documents are also served upon intervenors and/or applicants who wish to provide service in the same community at the same time.

It should however be recognized that incomplete applications could create delays in the provision of the service proposed.

The Canadian Radio-television and Telecommunications Commission will hold a Public Hearing beginning October 17, 1978 at the Airline Hotel, 698 Arthur Street West, Thunder Bay, Ontario to consider the following:

DAVID BROUGH, REPRESENTING A COMPANY
TO BE INCORPORATED, P.O. BOX 625,
