

HOSPITAL NOTES

Pictured here is the new McCausland Hospital in its present stage of construction. The floor and roof are expected to be completed within two weeks. Workers are now busy with welding and applying the aluminum finish. Although the carpenters' strike this summer slowed down operations, construction has since accelerated rapidly and is now on schedule.

PROGRESS IN TERRACE HEIGHTS SUBDIVISION

Houses are being erected with great speed in the new Terrace Heights Subdivision, as home-owners frantically attempt to complete the major work before the cold weather sets in. A contract has been awarded to Stephen Zysco Construction for repairs in the area, which will open sixty-one additional lots bringing the number of servicable lots up to one-hundred and forty-five. Approximately sixty houses will have been constructed by the end of this year.
