

ROSSPORT WATER ASSOC. GENERAL MEETING

Sunday December 10th a general meeting of the Rosspport Water Association was held in the Community Hall. Felix Legault president, chaired the meeting and the secretary-treasurer Anne Todesco was in attendance.

The purpose of the meeting was to acquaint the subscribers with the process made towards obtaining the deed of the water easement strip of land and applying for a grant to improve the waterline.

Dave Shantz P. Eng. the Environmental Officer and Frank Wright of the Ministry of the Environment were present to present their findings in their investigation of the project and to offer four alternatives regarding the improvement of the water system - namely: 1. repair the existing system, flush out the reservoir at the dam and pipes, install a meter and chlorination equipment; 2. completely rebuild a similar system to the present system; 3. develop wells to supply the community; 4. or supply water from Lake Superior.

These alternatives were discussed. It was found that these alternatives can be very much effected by the requirements for
