

SCHREIBER-TERRACE BAY

CHILDREN'S WORKING GROUP

A meeting of the Schreiber-Terrace Bay Children's Working Group took place last Monday, January 29th at Holy Angels School. Participants discussed a draft proposal for a Generalist Worker in the local area. The function of such a worker would be the prevention of problems and support to children in Schreiber-Terrace Bay. A primary method of achieving this would be to maximize the strengths of existing agencies through co-ordination of their services. Also attending were Sister Shirley Caicco and Mr. Bob Cannon of the Thunder Bay Children's Services Working Group who discussed the implementation of such a program. This would be tied into a network system of other communities with Generalist Workers along the North Shore and district area. Participants at the meeting gave unanimous approval to the proposal for such a co-ordinator in a network system.

Preparation of a final proposal to be submitted to the Thunder Bay Children's Services Working Group is underway. Representatives from local communities (Cathie Kutcher was elected) will then be working with the Thunder Bay Children's Services Working Group to develop a district proposal. This will take some time to develop a network concept encompassing the different communities and their needs, and to meet the criteria as set down by Queen's Park. Another meeting of the Schreiber-Terrace Bay Children's Working Group will be held when the district proposal has been completed.

The North of Superior District Roman Catholic Separate School Board

The Regular Board Meeting No. 1/79 of the North of Superior District Roman Catholic Separate School Board was held Saturday, January 27th at St. Martin School, Terrace Bay. The meeting opened with prayer.

Policy was approved: That any employee leaving the employ of the North of Superior District Roman Catholic Separate School Board having ten or more years of service may be awarded a gift in token of the Board's appreciation. The nature of the gift will be determined from time to time by the Board.

The Director of Education advised that the existing arrangement regarding the Oral French program in Red Rock will be maintained until the end of this school year.

Mr. E. McCluskey, Curriculum Resource Teacher, gave a presentation on the Mathematics Working Paper developed for the system. The document, which covers Primary, Junior and Intermediate levels, has proved to be very useful to the teachers in long-range planning and daily planning. Some adjustments have been made accordingly from teacher input. The document has been discussed with the Secondary Principals and Math Heads in the high schools. The Ministry of Education's Curriculum Guidelines and "The Formative Years" have been important factors in the development of the program. Mr. McCluskey was thanked by the Board for a most interesting presentation.
