NOTICE

TERRACE BAY HYDRO CUSTOMERS

Due to higher cost of providing service, Terrace Bay Hydro finds it necessary to increase retail rates an average of 6% effective on bills issued on and after April 1st, 1979.

As a result of better than expected operations of Ontario Hydro in 1978, this utility will be receiving a discount on bulk power purchased from Ontario Hydro in 1979. The exact amount of this discount will not be known until early 1979, but it is currently estimated that it will reduce our total revenue requirement by approximately 5.6%.

Therefore your bills during 1979 based on metered consumption will reflect this discount. The net effect will be an overall increase in your bill of approximately .4%.

This increase in rates has been applied for and is subject to approval of Ontario Hydro.
