**FRUIT BOTTOM YOGURT**..... **59¢**

**1983 Sibley ski tour**

The organizing committee for the Sibley Ski Tour is in the final stages of preparation for the March 5 tour. Already there are over 300 registrants - many from the region and some from Southern Ontario, Minnesota and Manitoba.

This year, along with the traditional awards, there will be a new award introduced for the tour - the Kam Motors Corporate Cup. The Cup will be presented to the school, club or business accumulating the largest number of kilometres during the tour. Since the award is presented on the basis of distance,

not time, any group can win regardless of ability.

Traditionally the ski tour has held something for all abilities. For the more advanced skier there is the challenge of the 50 km event, while the beginner and intermediate skier can find fun, challenge and camaraderie in the 20 km and the 40 km events.

Register now to enjoy a day of skiing on the beautiful Sibley Peninsula - bring family and friends and make an outing of it!  
1983 Sibley Ski Tour  
Saturday, March 5  
Sibley Peninsula  
Start Time 9:00 a.m. sharp!

**Library notes**

Have you visited your Library lately? We have something to please everyone regardless of where your interest lies ie: crafts of every kind - home repairs - home improvement - cookery - sewing - knitting - crocheting - medical books - automotive - the arts - photography - sports - religion - literature - biographies - current

magazines - telephone directories from several major cities - government and education pamphlets. We are also able to acquire 16 mm films on a wide variety of subjects.

So come in for a visit you just may be able to find something to help you with your special interests.

**Forestry...**

continued on page 7  
Modernization Program to \$276 million from \$235 million. These DREE grants, along with provincial grants, are expected to generate between \$3 and \$4 billion in private sector investment in pulp and paper modernization.

Under this program, the Government of Canada invested \$100 million in northern Ontario. Those DREE grants have generated more than \$1 billion in private sector investments. The result is that northern Ontario possesses one of the most modern pulp and paper industries in the world. **New Direction**

Canada's usable forest stocks are decreasing. Reforestation and forest management are vital in maintaining the forest industry and in

generating growth. The Government of Canada is negotiating new forestry agreements with the provinces. The aim of the federal government, in negotiations, is to increase timber stocks and improve forest management.

The federal government, through job creation programs, is helping to combat the present problem of unemployment while regenerating timber stocks to meet the future needs of the forest industry.

By many economic standards, the forest industry is perhaps Canada's most important industry. The Government of Canada has taken and will continue to take action to enhance the forest sector and its benefits for all Canadians.

**RATE INCREASE APPROVED**

Schreiber Hydro has received approval from Ontario Hydro Power Corporation Act for the 9.7% rate increase for 1983. This increase will be effective on all bills issued in March 1983, for Schreiber Hydro Customers.
