

THANK YOU

The Schreiber-Terrace Bay Intermediates would like to express their sincere Thanks and appreciation to all who helped make their Third Annual Hockey Tournament a huge success. Special thanks to Tony Galena and Carling O'Keefe Breweries (sponsor), to the Schreiber and Terrace Bay Recreation Committees, to Figliomeni & Sons Inc., to the Referees and penalty box personal and most of all to you the fans. Without you this tournament would not be possible.

See you all again next year.
SCHREIBER-TERRACE BAY
INTERMEDIATE HOCKEY CLUBS.

THANK YOU

I would like to express my sincere thanks to Dr. Rao, Dr. Wyant, Dr. Croll and all Nurses and Staff 2nd floor S. at St. Joseph's Hospital, Thunder Bay for the good care given to me while I was there. Thank you to everyone who sent cards, gifts, prayers, phone calls and all who visited me in the hospital and at home, Pastoral care who were with me when I needed them. Many thanks to the people who provided transportation in Thunder Bay and drove us home. Also thank you to the Royal Canadian Legion, Branch 5 Thunder Bay, and R.C.L. Branch 223 Terrace Bay, and to everyone who helped in any way. Your kindness will never be forgotten.

Rolly Sinotte

Board votes . .

continued from page 1

the question. He said that as the Whitesand and Selem residents were not opposed to annexation and the Marathon residents were, he felt it was appropriate to only annex the area between Schreiber and Rossport. The suggestion received little support at the Board table and when Father Delaney made a motion to annex only Kilrairie Township, no other member was prepared to second it.

Schreiber Trustee Don Burton said that he felt the Board needed more time to study the question, especially after the Committee could not come up with a consensus, and there

was such strong objections from Marathon to the proposal.

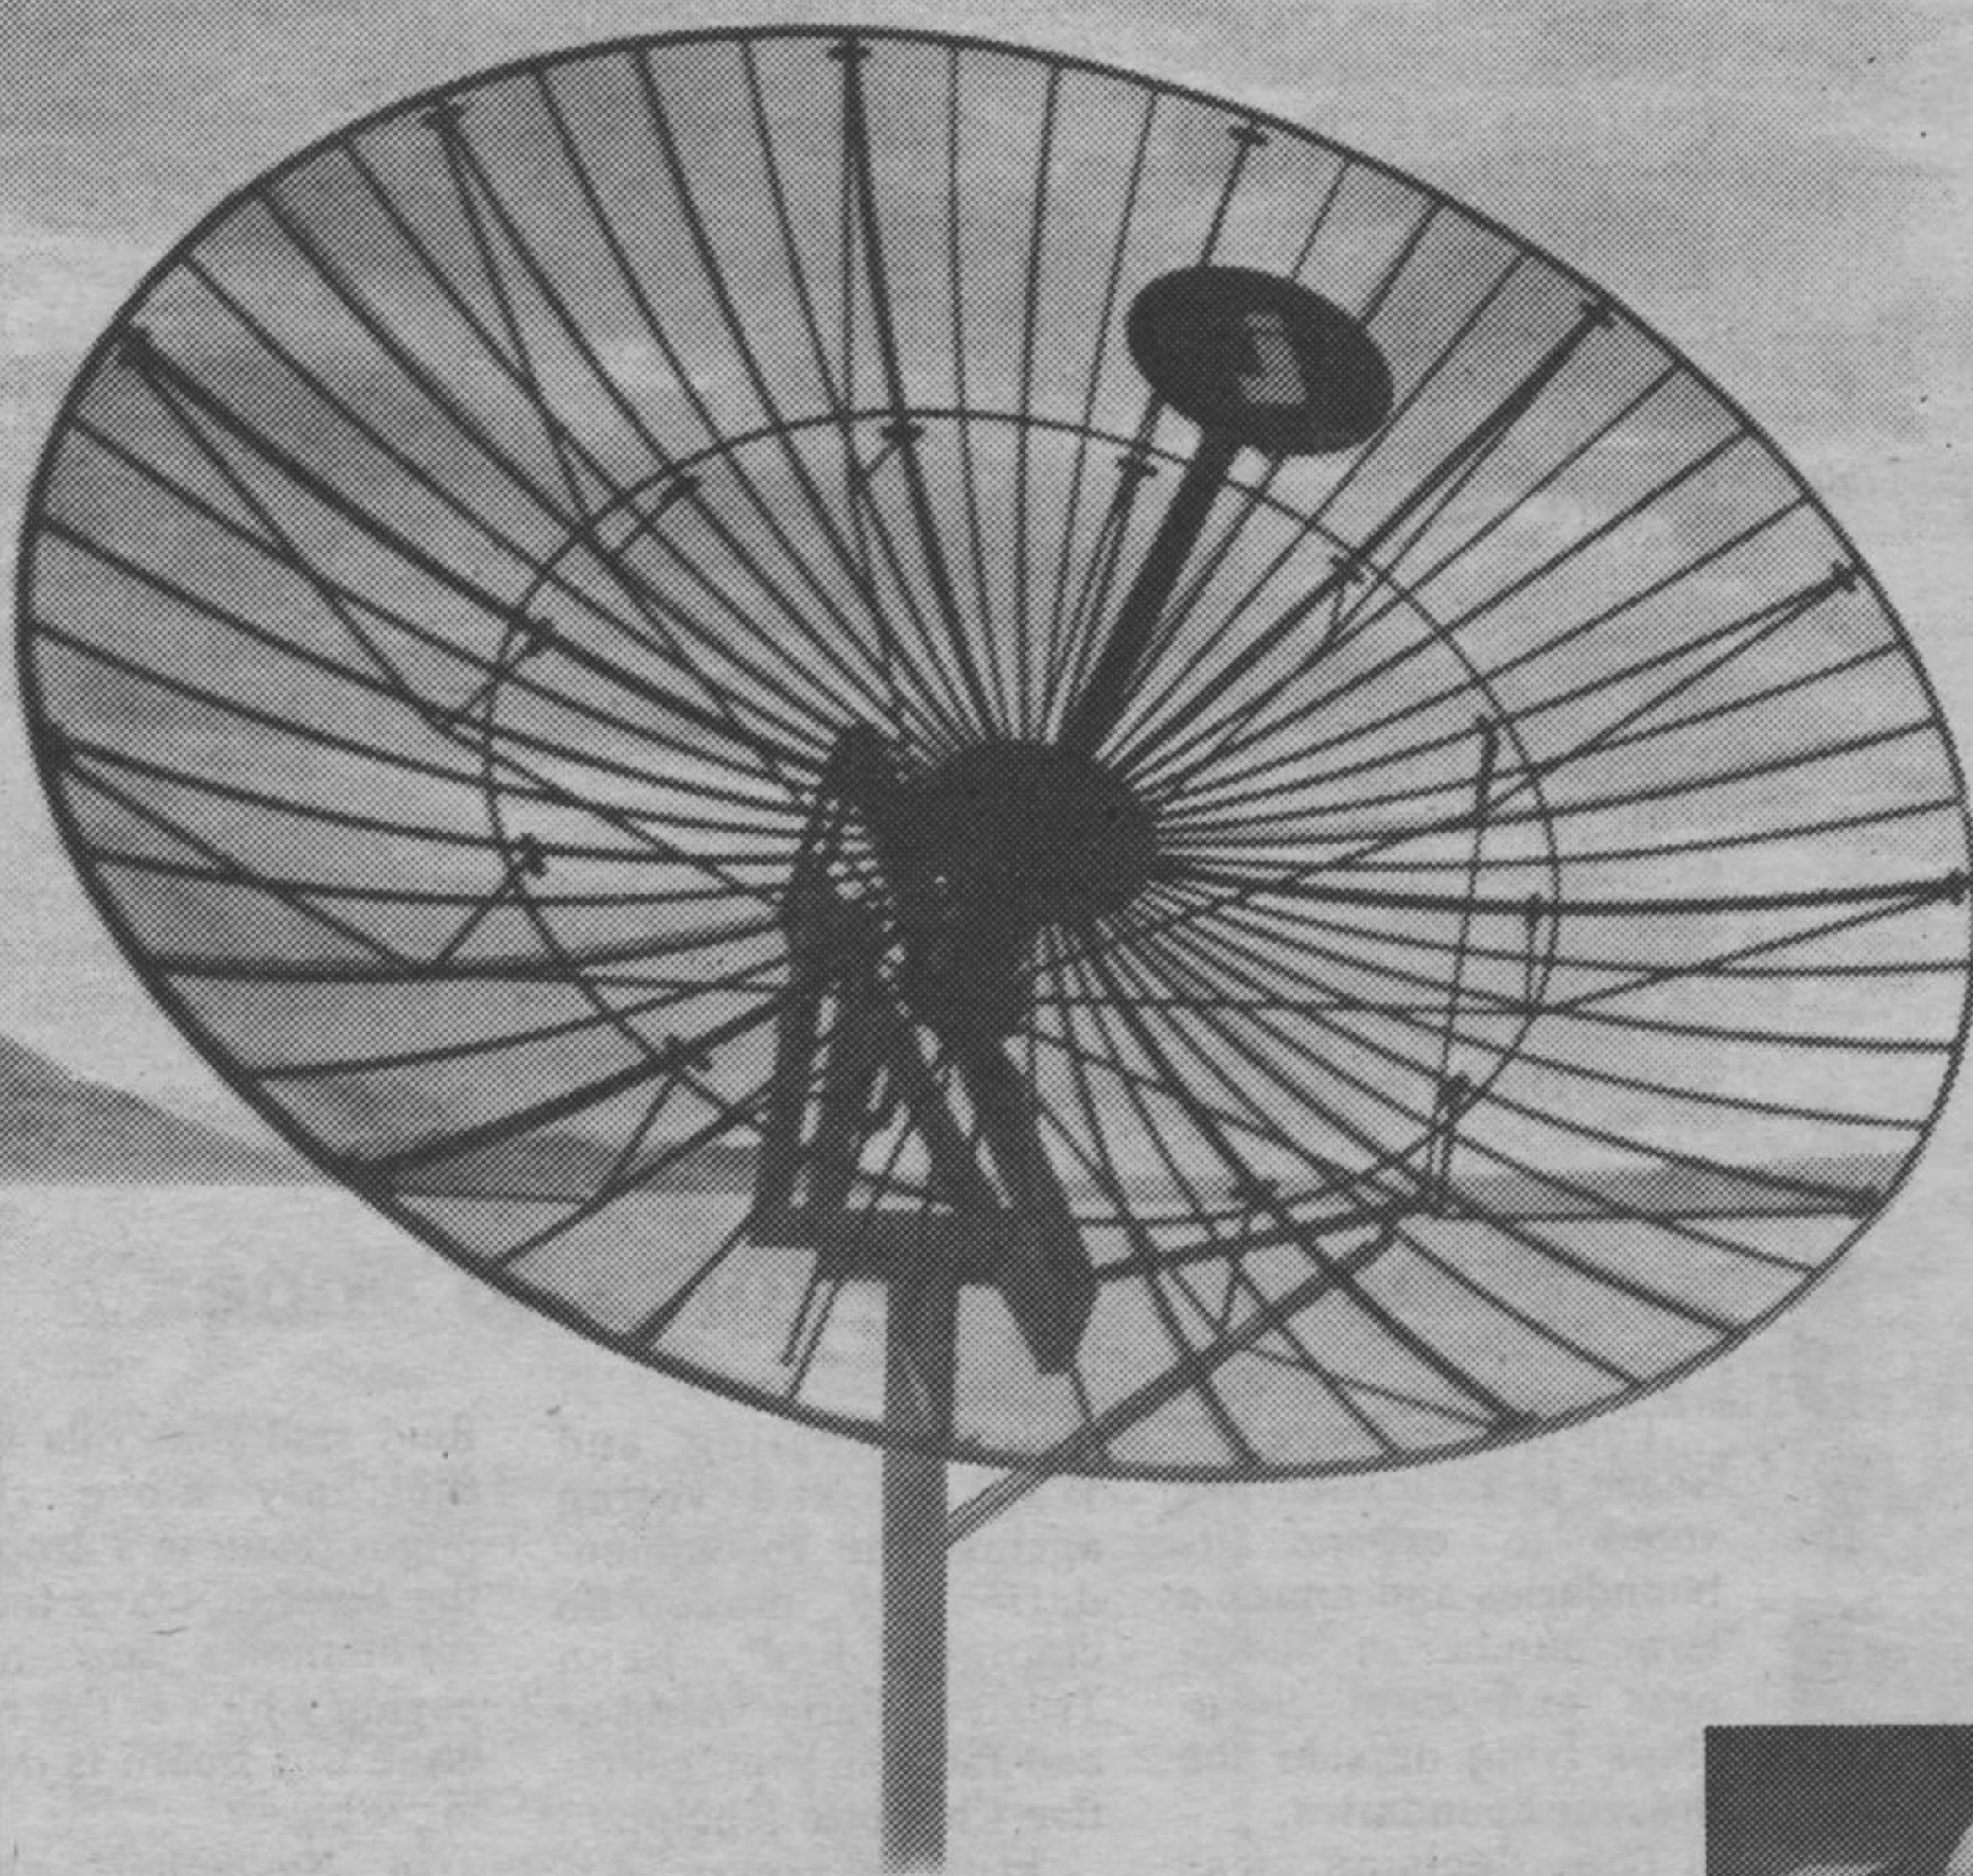

Terrace Bay Trustee Joan Nugent said that she strongly supported the annexation proposal and urged the Board to adopt it immediately.

Chairman Mike Reid closed off the debate and put the Committee's Recommendation not to change the boundaries to a vote. The Recommendation was not accepted by a vote of three For, eight Against, with three Abstentions. Manitowadge Trustee George Bodak and Marathon Trustees Bob Cheetam and Pat Richardson voted to make no change, local Trustees Mike Reid, Jim Figliomeni, Gerry Armour, Joan Nugent and Paul Cebrario voted against the recommendation, and Trustees Don Burton and Tim Delaney abstained.

At this point the Marathon residents present in the audience angrily stormed out of the meeting. One Marathon cottager said, "This is the result of a well organized effort, we didn't have time to organize anything and it's not fair." Several Marathon residents interviewed after the meeting made it clear that they were not happy with the decision and intend to fight it. They said that they would be exploring the alternatives open to them.

Trustee Joan Nugent, seconded by Trustee Father Tim Delaney, then moved that the Board proceed with the annexation. The motion was passed and a Committee consisting of Trustees Paul Cebrario, Gerry Armour and Andree Desilletes was set up to establish the formal boundaries.

THE SYSTEM THAT STANDS ALONE.

The Janeil Satellite Dish. The Chaparral Polarotor. The Dexcel DXP-1100. Separately they're state-of-the-art components. Together they're a system without equal. In quality. In technology. And in price.

THE JANEIL SATELLITE DISH SYSTEM.

This superior satellite dish system offers both front and rear-feed, computerized and manual mounts, and 10' or 13' diameter dishes. Assembly is as easy as a simple turn of a bolt. Superbly designed and built for durability, there is no satellite dish system that can compare.

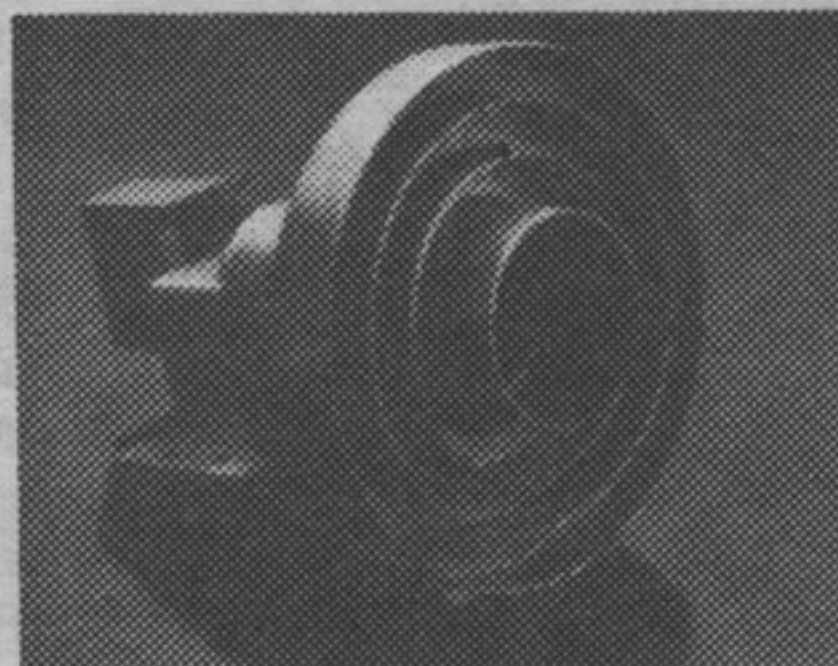

THE DEXCEL DXP-1100.

Comprised of the Satellite Receiver and the LNA/Down Converter, the Dexcel DXP-1100 provides a complete package for satellite reception. The receiver features a dual tunable audio matrix stereo with two separate and distinct channels of sound, plus an improved circuit for better video performance. Complementing the receiver is the LNC which comes in either 100° K or 120° and is equipped with 125 feet of pre-assembled coaxial cable. Together they make the Dexcel DXP-1100 a system with rival. At any price.

THE CHAPARRAL POLAROTOR.

Known for its enduring excellence, the Chaparral Polarotor has set the highest standard in its field. It will change antenna polarity in less than half a second. Inside the circular waveguide, a probe is rotated by a small servo to any position over 180° with 1° accuracy. That kind of precision and efficiency makes the Chaparral Polarotor only one thing. The very best.

With superior components like the Janeil Satellite Dish System, the Dexcel DXP-1100 and the Chaparral Polarotor, there is only one result. A superior system. Working in unison, they create the finest satellite reception unit available anywhere. At any price. Ever.
