

McCausland Hospital News

With the arrival of spring, it is time once more to remind citizens in our communities of the 12th annual meeting of members of

The McCausland Hospital Corporation, which will be held this year on Tuesday, June 14th in the multi-purpose room at the Hospital. The reason for this early notice is that to be entitled to vote, one must become a member of the Corporation by May 14th. Memberships may be obtained at the administration office between 9:00 a.m. and 4:00 p.m. Mondays through Fridays. The cost of a membership is \$5.00 per year or a life-time membership for \$100.00, so if you are interested in obtaining a membership, don't delay.

Due to a job promotion, Mr. and Mrs. Dick Mannisto will be leaving our community in

the not too distant future. Dick will relinquish his position as Chairman but will continue as a member of the Board until the annual meeting. In the meantime, Mrs. Christine Handy will be Acting Chairman until the same date, Tuesday, June 14th.

We have been fortunate in acquiring the services of Mr. Aurele Piche who will assume the position of Director of Nursing. Mr. Piche is married, with 3 children, and has 10 years of experience as Director of Nursing.

Dr. W.G. Goldthorpe, who has served our communities since January 24th, will be leaving us at the end of April, and Dr. Mainman will arrive May 1st to

resume his services at the Hospital. Both doctors have provided us with excellent medical care and their assistance is very much appreciated.

We also have acquired a second physiotherapist, Mr. William Glasier, who comes to us from Kingston, Ontario, and will begin his practise on August 1st.

Hospital Day this year in Terrace Bay will be held on Sunday, May 15th, and plans are well underway for the day's activities. Despite the poor weather conditions last year, a good turnout showed up and we have decided to repeat the observations of this day. This will give newcomers to our communities an opportunity to tour the hospital and demonstrations of new equipment will interest those who have in the past attended these tours. More details will be outlined in future issues of the NEWS, but in the meantime plan to make a date with your hospital and be up to date on its services.

Thank You

I would like to thank all my friends for their calls, cards and visits to the Port Arthur General Hospital and The McCausland Hospital, Terrace Bay. Thanks to Dr. Wilkes, and the nurses and also many thanks to my neighbours the Prescotts, Petkovics and Ukrainecs. Your thoughtfulness will always be remembered.

Good chance of a large mine

The Northern Miner
Toronto, Ontario

April 14, 1983

The Editor
Terrace Bay News

Dear Harry:

Here is the information on the Zenmac property I told you I would send. I don't know if it means much to a non-mining person. What it says, in effect, is that there is a very good chance of a large mine being built there, which could eventually provide 500-700 direct jobs. The spinoff jobs in a mining community are traditionally seven for every one, so you are talking about a long term potential of upwards of 4,000 jobs. But first metal prices have to improve. Falconbridge has to make a decision to build the mine, and a 2-4 year phase of construction must be completed, for which much of the specialized labour would be imported on a temporary basis. Until a mine is actually producing, the whole thing is very iffy.

But if you combine that with the Hemlo discoveries to the east, it is clear to me that the economic face of your area is going to change during the next four to five years. This is a short time in mining years as many camps such as Red Lake take 30 years or more to fully develop. Mining is a tough industry, very cyclical, and as a result there will be many ups and downs during the next twenty years. However, these two operations look like they would be fairly well insulated from downturns because the ore they have discovered is high grade.

There is an important, but secondary, gold rush going on to the northeast of Terrace Bay, where five or six of the two dozen companies that have staked properties will be working this summer. This should at the very least, provide some spinoff money from motels and restaurants etc. for your towns. However, that area is currently a long way off from having a mine, though one could possibly be discovered this fall.

Yours truly,
Kerry Knoll
The Northern Miner
