

HERE COMES FRONT-DRIVE TEMPO

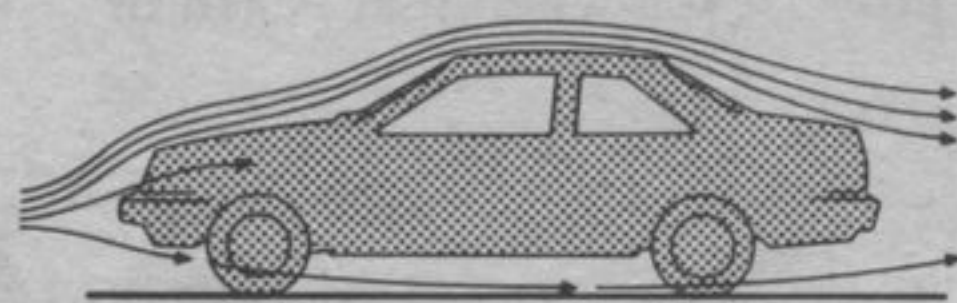

NEW NAME, NEW CAR, NEW 5-SEAT FLAIR.

Ford Tempo: a totally new 5-passenger sports sedan. Shaped for efficiency, engineered for a level of performance that will reawaken the joy of driving. Tempo has front-wheel drive, 4-wheel fully independent suspension, and the smooth, responsive power of a new high-swirl-combustion engine.

Aerodynamics that work

Tempo's clean-flowing lines are so effective, only six aero horsepower is needed to overcome wind resistance at 80 km/h. This very low drag factor means less fuel consumed. Not only that. Tempo's controlled air flow increases roadholding, improves handling, and reduces interior wind noise.

New 2300 HSC engine

Developed especially for Tempo, a new high-compression, high-swirl-combustion, 4-cylinder engine delivers powerful low-end torque.

7.1 L/100 km
40 MPG

Estimated rating based on Transport Canada approved test methods with standard power train. Your actual results may vary due to road, vehicle condition, driving habits and weather.

You get quicker responses in stop and go driving. Transmissions: 4-speed manual transaxle (standard), 5-speed manual (optional at no extra cost), 3-speed automatic (extra cost option).

2-door Coupe and 4-door Sedan

Two body styles are available, both with full 5-seat capacity. Tempo is actually roomier inside than it looks outside.

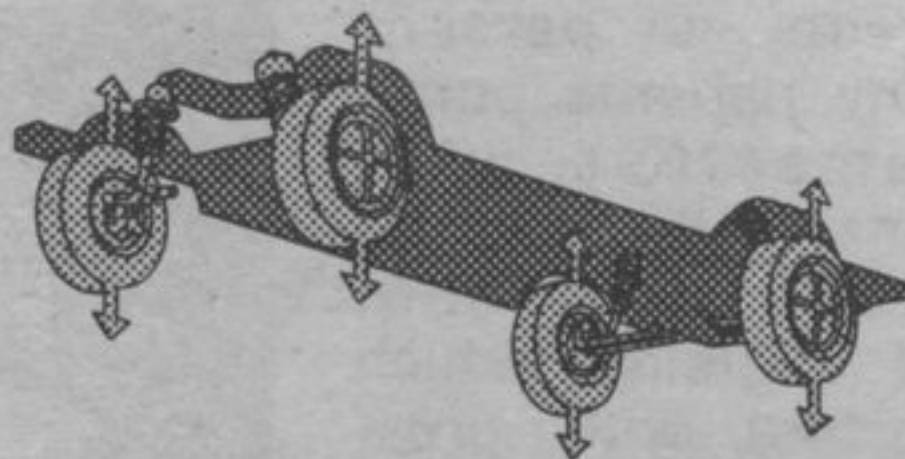

Computer-refined interior

Tempo's 5-seat configuration provides an especially comfortable combination of head, shoulder and

leg room for both front and rear seat passengers.

Exceptional road-holding

Tempo's front-wheel-drive design not only delivers extra tire-to-road traction, it gives you precise handling and tight, flat cornering. The new-design 4-wheel independent suspension allows each wheel to absorb road shocks independently. This smoothes out the ride and increases road-grip for extra safety.

Commitment to quality

Tempo is built at Oakville, Ontario, where Quality is Job 1. You can feel the difference when you drive it. You can see it in the fit and finish of the bodywork. Tempo is a solid, well-built car.

Pick up the Tempo of your life

Tempo is an all-new aerodynamic sports sedan. It replaces the boxy look and feel of many ordinary cars with a more responsive and more enjoyable driving experience. Test drive a Tempo and discover the difference for yourself.

PRICES FROM
\$7549

Manufacturer's suggested retail price, not including transportation and handling, provincial sales tax or licence. Dealers may sell for less. Certain items illustrated optional at extra cost.
