

Terrace Bay Legion Re-dedication

The Terrace Bay Legion held a re-dedication ceremony over the weekend in honour of their tenth anniversary. A social evening was held Friday night with a Dinner attended by about eighty people on Saturday. On Sunday the Legion held a series of sports and fun events for Legion members and their families.

Left to right: John Falzetta, Past President, Branch 223; Gary Sampson, the new Zone Commander for Zone 82; Skip Davis, Past District Commander of the Ladies Auxiliary, District 8; and Paul Coupal, past treasurer, Branch 223.

Legion, Branch 223, Terrace Bay, 10th Anniversary ceremonies were, left to right: Bill Kujbida, Clarence Mercier and Addie Beaulieu.

John Pederson and Mike Groman hold some of the bigger fish caught in last weeks Fish Derby sponsored by the Terrace Bay District Rod and Gun Club.

Rosspport Fish Derby

by ANNE TODESCO

Derby committee president Cyril Brassard has informed me that plans are well underway for the second revival of the original Lake Superior Fish Derby. Members of his committee are Vice President Douglas Stefurak, Treasurer - Alex Krystia, prize committee chairman Lorraine Seppala, and Lester Legault will again be the Weighing-In Master. This Northshore Derby will have many prizes offered for

competition. To mention a few - the first prize will be a twelve foot aluminum boat and the mystery prize is a three and a half horse power outboard motor. The grand attendance prize will be a thousand dollar cheque and the lucky winner does not have to be present as long as he has an entry ticket. Brassard reports the tickets are moving very well.

The grand champion award for the biggest fish will be a trophy offered by the

Kimberly-Clark Co. A special trophy award will go to a girl or boy under twelve years. Kimberly Clark also presented the village with a large trailer to use as a booth to enable the villagers to raise funds. Three or four concessions can be set up in this roomy trailer. This permanent addition to the village removes the necessity of having to erect and dismantle booths for the Derbies.

Be sure that you have your ticket for

this year's Derby - it only costs a couple of dollars and has much to offer. This year the Committee plans to have a beer garden on Saturday. A pre-Derby dance will take place on Friday night in the hall sponsored by the Fire Fighters group.

The first and original fish derby was started by the former Rosspport Game and Fish Conservation Club in 1938. This Derby was curtailed in the early 1960's

continued on page 9

The bridge at mileage six on the Kimberly-Clark road to Longlac was taken out last Thursday, closing the road down. The bridge will be replaced by a temporary bridge this week, and will ultimately be replaced by a brand new structure.

The bridge was originally built in 1947 by Ontario Hydro and was modernized in the early 1960's. The present up-grading has been made necessary by the increasingly weight of the loads being carried on the road.

K-C Open House

On Saturday, June 11, Kimberly-Clark of Canada held an Open House at its mill in Terrace Bay. Over six hundred people took advantage of the opportunity provided by the Company to look over its operations.

The tour started at the Arena at the Terrace Bay Recreation Centre. Several displays were set up in the Arena along with stands for refreshments provided by

Kimberly - Clark. Transportation was provided by bus from the Arena to the mill for the Tour itself.

The Open House lasted from 10:00 in the morning until 4:00 in the afternoon with President Walter Groman and Industrial Relations Manager Al Chisholm on hand to greet the people. As well as the regular tour Kimberly-Clark also provided special tours for the elderly and those

who had difficulty climbing stairs. Day Care services for parents with young children were provided at the Recreation Centre.

Company representative Al Chisholm said that the purpose of the Open House was to give all the residents of Terrace Bay and Schreiber an opportunity to tour the mill and see what the operations were like.

Vandalism at golf course

Terrace Bay Police have arrested four juveniles in connection with a series of acts of vandalism at the Terrace Bay Golf Course.

The vandalism was under investigation by the force when they were informed by a local resident that he had observed some local youths taking a flag and committing other damage on the course. Police subsequently questioned the juveniles and recovered 50 flags which had been

stolen from the ski chalet at the Terrace Bay ski hill. They also recovered tapes that had been stolen from vehicles, pocket knives which had been stolen from a local business, and cleared a Break and Entry in which \$1,000 was stolen.

Charges under the Juvenile Delinquents Act are pending in the case.

Under other items in the Police Occurrences Book, a 1979 Johnson outboard motor valued at

\$1,800 was stolen from a vehicle parked on Kenogami on the evening of June 1. The theft is under investigation.

On June 2, two persons from Thunder Bay were charged by local police with driving under suspension, impersonation and obstruction of police. They are to appear in local court on July 27.

A ten speed bicycle has been turned into the police and can be claimed at the station.
