School Board says NO...

continued from page 1
"wear and tear" on the field was not a problem because the entire field was being re-built later in the summer under a joint agreement between the town and the school board.

Terrace Bay Separate Trustee Jim Figliomeni said that he was in

favour of withdrawing the policy prohibiting carnivals and circuses. He said that "the Kinsmen are a public service club that has done a lot of good work in Terrace Bay and I feel that they should be able to use the field. Its the only one that they can use in town, the public owns it and I feel that the public

should be able to use it."

Trustee Joan Nugent said that she was opposed to withdrawing the policy. She said that there had been problems in Schreiber, the policy had been put in place, and she did not feel that it should be changed. Terrace Bay Trustee Gerry Amour also said that he was opposed to withdrawing the policy, and concurred that the Kinsmen should not be allowed to use the field.

The Board subsequently discussed the question in the portion of the meeting that was closed to the public. After the closed session, Trustee Figliomeni again raised the question. The matter was put to vote and the proposal to allow the Kinsmen to use the field for the carnival was defeated. Interviewed after the meeting several Trustees said that they beleived that this was the type of question that should be decided by local Trustees and that Trustees from other towns should not be interfering in purely local matter. Based on this they said that they felt they had no choice but to support the wished of the majority of the local Trustees.

THANKS FOR YOUR IDEAS

Last summer, the Ministry of Natural Resources invited you to come out with your ideas. To bring your thoughts on how to best manage Ontario's vast resources to a series of Open Houses across the province. And come out you did. By the thousands. With just as many good ideas. Now, we're inviting you to come visit once again, and see the results of your suggestions.

Our District Offices will be holding a Public Information Week from June 27th to June 30th. Everyone is invited to come out and view the documents and maps which have been developed, to ensure the wisest possible use of Ontario's natural resources. This is your opportunity to see how your ideas shaped up.
