

Trailer Park Debate - 2

continued from page 1
the "permanent temporary" trailers at the Aquasabon Falls Trailer Park".

"If your answer is 'yes', and you legally want an organized Trailer Park, then we must go through the proper legal procedures. We must change the by-law and be aware of all the implications of having a permanent trailer park in Terrace Bay, and we must make the citizens of Terrace Bay aware of these implications. We must think of the added costs to the taxpayers in

supplying municipal services to a permanent trailer park - sewers, water, garbage collection, school busing, etc., etc."

"Now, if you have decided that your answer is 'no' to that question Do you want an organized permanent trailer park in Terrace Bay - I wish to make the following motion:"

"Whereas it was never the intent to have a permanent Trailer park in the Township of Terrace Bay, and Whereas the Aquasabon Falls Trailer Park is

presently being operated in violation of by-law #318 of the Township of Terrace Bay. Therefore be it resolved that the owner of the Aquasabon Falls Trailer Park be instructed to inform any persons living in the Aquasabon Falls Trailer Park on a permanent basis that they must vacate said premises by September 1st, 1983, or Council will take the steps necessary to correct the situation by enforcing the Zoning by-law #318."

Reeve Speer said, "We have a motion moved by Ollie Chapman, is there a seconder". There was complete silence around the Council table and in the Council chamber for almost two minutes as the Reeve said nothing and waited for another member of the Council to second the motion. The Reeve then said, "There being no seconder, we can not entertain the motion."

Councillor Chapman then continued to read from her statement. "IF your answer is not 'no'

to that question - Do you want an organized permanent trailer park in Terrace Bay? - then it must be 'yes' - and I wish to make the following motion. Be it resolved that the Town Council of Terrace Bay take whatever steps necessary to change the Zoning by-law #318 so that a permanent organized Trailer Park can be legally established in Terrace Bay, not necessarily at the Aquasabon site."

Reeve Dave Speer said, "We have a motion moved by Councillor Ollie Chapman, do we have a seconder."

Again there was complete silence in the room, and again the Reeve waited almost two minutes as the Councillors waited tensely, without so much as moving their papers. The Reeve finally broke the silence by saying, "There being no seconder, we can not entertain the motion."

Councillor Chapman again began reading from her prepared statement. "Whereas the

Town Council of Terrace Bay cannot decide whether or not it wants a permanent trailer park in Terrace Bay. Therefore be it resolved that a special committee be appointed to study the Zoning by-law #318, as it applies to the Aquasabon Falls Trailer Park. This committee to consist of two Town Councillors, the Town Engineer, and a member of the Planning Board."

For the third time the Reeve said, "We have a motion moved by Councillor Chapman, is there a seconder." And for the third and final time the Council waited in stoney silence until the

Reeve said, "There being no seconder, we can not entertain the motion."

With the final ruling from the Chair, Councillor Chapman turned sharply to the other members sitting at the Council table and said, "I do not believe it. I do not believe you gentlemen."

solution to the problem of a shelter for battered women, Project Mayday recommends that they as a committee be included in formulating an approach to negotiations between the municipalities and the provincial government."

In announcing the program is the Legislature, Drea said, "When I spoke to the Standing Committee on Social Development when that committee was dealing with family violence and child abuse earlier this year, I promised to take a look at assisting women who have been victims of this tragedy."

I am pleased to have the opportunity, today, to announce to the Honourable Members that my Ministry will immediately implement a program to help those in crisis.

This program - called "Family Resource Centres" will serve the communities of Northern Ontario. Women in crisis and especially those

who are victims of abuse will be helped.

Over the next two years, my Ministry will spend \$1.68 million on capital expenses to construct 12 eight-bed centres, or homes, in rural communities with populations under 12,000 people. Six of them, four in municipalities and two on Indian reserves, will be started later this summer or early fall.

We intend to engage our municipal partners in a co-operative venture. This will be an opportunity for all levels of government, as well as community spirited-groups, to be creatively responsive to the needs of the north for support services.

To facilitate immediate commencement of these projects, my Ministry will provide 100 per cent of the capital funds necessary to build these homes in Northern Ontario.

The ongoing operation will be a partnership between the municipality and the province,

with a guarantee of base-funding - by us - during the initial start-up. We will also work closely with local municipalities to ensure the fullest of co-operation and support.

Each of the centres will provide emergency housing and support services to abused women - those under physical, social and emotional stress - along with single mothers and elderly women.

In addition, counseling will be purchased on a fee-for-service basis under the General Welfare Act.

The women, who will be living in the homes, will share the responsibilities of household duties, such as cooking and housekeeping.

Drifting Continents

Florida was once attached to Africa, and parts of Georgia are still there. Pieces of Alaska used to be down near the equator.

Over millions of years the continents have drifted thousands of miles, riding on the backs of huge plates that form the Earth's cracked crust. They travel in very slow motion, at a rate of 1 to 5 inches a year, in almost every direction but south.

Thick Steak

If you're broiling steak, make sure it's at least one inch thick. You'll have a difficult time getting a medium-rare steak or any special degree of doneness with a thin steak.

Low Calories

On a diet? Marinate vegetables in salad dressing to pack in a plastic container for low calorie picnicking.
