

# Council says 'yes' to Carnival

continued from page 1  
later discussions as more information on development becomes available.

The regular Council meeting was opened and the minutes of the regular meeting of June 13 were adopted as well as those of a special meeting called on the same day. Councillor Ollie Chapman asked, "Did we find out anything more about the fence behind the Recreation Centre." Public Works Chairman Joe Kennedy replied, "We haven't heard anything more. George (Councillor Ramsay) is checking with the police and fire departments and as soon as we hear back we will go to work."

## CARNIVAL

Bill Savage appeared as a delegation on behalf of the Terrace Bay Kinsmen Club. The Kinsmen Club requested the Council to allow them to block off the eastern end of Simcoe Plaza from the Municipal Offices to the intersection with Radisson. The Club wishes to use the area as the site for the Annual Midway-Carnival that it sponsors.

Savage said, "Last year we used the grounds at St. Martin's school, but that didn't work out very well. The Carnival had to close down for Mass, and they really didn't have room to set up all their equipment." "We don't want to use the ball diamond behind the Texaco station because the children will be crossing the tracks and riding bikes and some of them will be coming alone." "We will be cleaning everything up ourselves." "This is a chance we

have to make \$500 or \$600 for public service work, and we really don't have to do anything. They come in and set up, and take everything down, so its very good for us."

Councillor Chapman asked, "What are the times of day you are discussing." Savage informed the Council that they would need the area for Friday and Saturday. "It's the same group that comes in every year. We used to use the grounds at the high school, but the school board has decided that we can't use them anymore. We approached them but they said we can't."

Savage was asked if he had discussed the proposal with the police and fire departments. "We talked to the fire department and they have no objection, and to Rev. Bigelow and he has no objection. I missed Tom (Chief of Police Tack) but I will talk to him tomorrow."

Reeve Speer asked, "Have you looked at other sites." Savage replied, "We have but this appears to be about the only site in the centre of town." "There aren't any businesses that would really be affected, except the bakery and I suspect they would pick-up business."

The Reeve asked the Public Works Chairman if closing the street would create a problem for his department. "Joe, from the Public Works stand point, what do you think." Councillor Kennedy replied, "The only problem I can see is the legal one. Can we do this legally." The Reeve said, "Yes, I don't think that that is a

problem."

The Reeve went on to say, "I would certainly like to see our children have the opportunity to attend the carnival. I am disappointed to hear the school grounds are not available. That is obviously the ideal site, but I guess that is a decision they have made and so we will have to do the best we can. Is someone prepared to move a motion."

Councillor Bill Houston moved, and Councillor Joe Kennedy seconded, a motion that the Kinsmen be allowed to use Simcoe Plaza for the Carnival. The motion was passed unanimously.

## CORRESPONDENCE

The Dog Control Officer reported that one dog had been destroyed in the month of May. He said that it was, "A very quiet month. There were several reports of dogs

on Birch Crescent."

McClausland Hospital requested the Township's assistance in its doctor recruitment program. The hospital has asked both Schreiber Terrace Bay for help with the program. Reeve Dave Speer said, "Our hospital has borne the cost of this for years, but now they need some help and I think its about

time that we carried part of this responsibility. Schreiber, I might add, has agreed to do this." On a motion by Ollie Chapman, seconded by Bill Houston the Council contributed the requested \$1,124 to the program.

The Lambton County Tornado Relief Fund wrote to the Council asking for a contribution

to their disaster relief effort. The effort is part of the provincial program in which the province will match any money raised dollar for

dollar. Councillor Bill Houston said, "I would just like to think that if we are in a similar situation the other municipality would contribute a
