Schreiber Summer Fun - Youth Drop In

On July 25th, twelve boys aged 9-13 participated in the recreation centre's first sleep over. Although everyone only got about four hours of sleep, the evening was full of fun as the group went roller skating, played in the games room, ate pizza and watched films. In the morning the sleep over group

and staff of the recreation complex enjoyed a delicious pancake breakfast. A very special thanks goes to Shannon Riley and Kevin Duguay who helped the group by providing some new games for them to play. To Gene Ross and Keith Trodd, thanks for showing that you care.

A canoe-camping trip has been planned for August 3rd and 4th, for youths aged 12 to 15. Consent forms can be picked up at the Drop-In Office.

Tot Drop In

The Tot Drop In has proven to be a very successful programme, as children aged 4 to 8 participate in various activities on Tuesdays and Thursdays from 2-4 p.m.

This week the Tot programme began with an exciting day of films and Bottle Art. The tots enjoyed painting and glueing different types of material to bottles of different shapes and sizes.

On Thursday, July 28th, the Tots ventured on a tour of the local Fire Station. This tour proved to be an exciting day as well as a learning experience for tots.

They enjoyed climbing aboard the fire engine and really enjoyed hearing the siren.

Alfred Gerow went home to Saskatchewan a happy man after a successful fishing holiday. His brother Eugene Gerow, insisted on being his guide on the many fishing trips. The largest fish Alfred caught was a ten lb. - 2 oz. lake trout. The day following this event, he took his niece Cathy Gerow along for the trip. Guide Eugene and her father instructed her how to attach the lure and worm to the line. Believe it or not, Cathy equaled her uncle Alfred by hauling in a lake trout exactly the same weight as the one he caught the day before. Eugene stated that it

was his good guiding that made the fishing trip a success.

Several moose have been seen along the highway near here during the early morning hours and evening. They either remain in the ditch or slip across the highway in front of motorists, making driving hazardous. Some just keep on eating lily pads and roots from small lakes along the roadside, quite indifferent to the motorist who stops to take their pictures or slows down to prevent hitting the animals.
