Crusader

Programme -

"It's better to build than to mend"

Often young people say, "I would like to do some good in the world. But with so many res-

possibilities at home and school, my nose is always to the grindstone and there is no chance for my life to mean anything."

This is a common and dangerous error. In helpfulness to others, every one can find on his own doorstep adventures for the soul - our surest source of true peace and lifelong satisfaction. To know this happiness, one does not have to neglect duties or do spectacular things.

Without such spiritual adventures people today walk in darkness. In the pressure of modern society we tend to lose our individuality and become stifled. Our young people lose direction and purpose and turn to drugs, alcohol and numerous other things which destroy their young lives. These lives need to be "mended."

The motto of the Crusader program which Terrace Bay Gospel Assembly will commence this fall is "It is better to build than to mend."

Crusaders is a program that emphasizes the building up of boys and girls into solid individuals.

This program for children 7 to 14 years of age is an exciting pro-

gram that develops children spiritually, socially, physically and mentally. New trails to adventure, fun and fellowship captivate their interest and attention.

Crusaders believe that by developing Christian character, imparting Bible knowledge, developing leadership abilities and interest in various skills, and providing wholesome recreational activities that the lives of boys and girls will be built and so influenced that in future years any "mending" won't be necessary.

If you would like to

see your child as a part of this great program please call Terrace Bay Gospel Assembly at 825-9368 or watch your community news for the registration date.
