## Profile . . .

continued from page 3

When questioned as to his views on the P.C. party and how he feels about the party, as to the role of creating good government representation for the North, Joe stated, "The conservative frame of mind has shaped the development of Ontario more than any other influence. More than geography, family ties, population or economic opportunities, the conservative approach has dominated the history of our province. To be a conservative is to be a realist. A conservative accepts things and people as they are, not as some abstract philosophy.

A conservative accepts what one can offer. He does not have ideal demands, whatever they may be.

Conservatives base their judgement on experience from the past, to act for the present and plan for the future.

The vision that I have for this Lake Nipigon Riding is of a community of many different interests, working together to achieve a society where opportunity to better one's self is within everyone's grasp, and the chance to build a better life is everyone's opportunity. Together we can make it happen. Together we can make it work!"

Keep up the good work Joe! We'll be rooting for you.
