

Marathon to receive heliport

Wilson Memorial General Hospital in Marathon has been given approval to build a 24-hour heliport to make air ambulance service available around the clock.

Construction contracts have been awarded to Towland Hewitson Construction Ltd. and Peterson Electric Co. Ltd., both of Thunder Bay. The total project costs of \$41,272.00 will be shared by the Ministries of Health and Northern Affairs. The Ministry of Transportation and Communications will provide technical guidance. This project has been endorsed by the Thunder Bay District Health Council. Health Minister Keith Norton said that he was pleased that Marathon is to have access to air ambulance service, both day and night in order to

transfer critically ill or injured patients to medical centres and he felt that this would enhance the health care in the community of Marathon. The Ministry's air ambulance "Bandage 3" which is stationed at Thunder Bay, has been available only during daylight hours on a special waiver from Transport Canada to operate without a licensed heliport. The nearest licensed airport to Marathon is located at Terrace Bay, 83 kilometers away. At present there are 25 licensed heliports in Ontario with a further 10 in various stages of construction. As many as 10 more are expected to be built this year as part of a major expansion plan, making air ambulance service available 24 hours a day in most areas of the province.
