

## Terrace Bay Council . . . .

continued from page 1

him their full support on this venture.

### Motions:

By-Law #15-83 regarding the assumption of the generating station road was given much discussion. This 66 ft. strip of land will be turned into a public road with maintenance provided by the township. Bill Houston was concerned about fixing up the road but Reeve Speer said that he wasn't concerned with major repairs on the pavement. If this must be looked at

in the near future, the township should give consideration to removing the pavement and replacing it with a gravel road. Council therefore passed by-law #15-83.

A motion was made to pay the following accounts:

Township: \$486,060.27;

Hydro: \$49,094.90

and

Library: \$4,390.60.

### Committee Reports:

From Joe Kennedy: He recently attended a conference concerning hydro and he took the opportunity there to

express his concerns about the services that Terrace Bay should be receiving but are not. He expressed the need for an additional hydro crew and also related the fact that the town is still experiencing difficulties with the lighting situation.

### Public Works:

One engine was lost in the township truck but warranty covered the costs. He stated that things are running smoothly in the Public Works department.

### Police:

George Ramsey stated that the township may be receiving some overtime bills for the police department due to court costs, etc. He commented on the Plan-

ning Committee which was held recently in Thunder Bay and thought it to be a very informative and worthwhile session with a good question and answer period and also a wide variety of Resource People.

### Library:

Bill Houston reported all was well with the library and no issues were brought up at the last meeting.

### From Reeve Speer:

Speer commented on his recent dinner with the Minister of Northern Affairs Leo Bernier which took place two weeks ago in Marathon. Attending the dinner with him was Clerk Co-ordinator Larry Simons. He also suggested

that council get in touch with the Ministry of Northern Affairs regarding the setting up of an Economic Development Committee.

### Other Business:

Council felt that the lighting problems in Terrace Bay should be given full consideration. They may have to look into the possibility of erecting more lights. Many complaints have been received about the street lights and it was decided that the angle of the lighting would be looked into as well as contacting the contractors who installed the system, to brief them on the various problems.

The meeting was adjourned by motion of council.
