

Terrace Bay Recreation News

Arena
On Sunday October 24th one of the compressors in the refrigeration room seized and we were forced to lose one of our ice surfaces. The Committee had to dis-

cuss the following before the decision was made:
1) Retaining what facility would put least load on the compressor.
2) What surface is quickest to install

3) Can we run one surface with one 50 H.P. compressor.

The decision was to retain the smaller surface and the surface which is the least difficult to install, that one being the Curling Club. The Arena ice will be out for approximately 2 weeks. The Recreation

Department will notify all user groups once the ice is usable. We apologize for any inconvenience caused by this problem.

Personal Money Management

We are sorry to say that this course which was scheduled to start next Tuesday, is post-

poned 1 week and will start on Tues. November 8th.

Level I Theory Coaching (for all coaches of every sport)

This course, slated for Nov. 4, 5 and 6, has been cancelled due to lack of registration. An alternative date will hopefully be established as soon as possible.

Basic Photography

This coming Friday is the deadline to register for the Basic Photography course which starts on Wed. Nov. 9.

Relaxation Workshop

This Friday Nov. 4th is also the deadline for the Relaxation Workshop, slated for Nov. 12, if you are interested, now is the time to let us know.

Beginner Woodworking

There are still openings in Beg. Woodworking. The dates for the 2 different workshops are Nov. 3 and 4 (7-10 p.m.); Nov. 5 and 6 (9-12 and 1-4); Nov. 9 (7-10 p.m.) and Nov. 24 and 25 (7-10 p.m.); Nov. 26 and 27 (9-12 and 1-4); Nov. 30 (7-10 p.m.). These workshops will enable you to complete a project just in time for Christmas. Sign up today!

Mixology

Although this is short notice, we would like to offer this course in early December or late November. Mixology is the art of mixing drinks properly. Please call as soon as possible if interested as time is running out.

Possible New Courses for Winter-Spring 84

The Terrace Bay Recreation Department, in conjunction with Confederation College, would like to offer the following new programs after Christmas. Please call 3542 if you are interested. These workshops will only be offered if sufficient interest is shown.

Paper Tole (Beginner and Advanced)

A successful Paper Tole workshop for beginners was held recently. Those who took this first course and would like to advance their skills are encouraged to submit their names for the next course. Beginners are also welcome, as 2 separate projects will be

offered during this 1 day workshop. Paper Tole is a beautiful art where you create a picture with a 3 dimensional effect, by cutting and layering identical prints.

Art from the Oven

Here is an exciting and inexpensive way to create your own decorations for home, holidays and gift-giving. Everything you need to mold and shape your own works of art are right there in your own kitchen! Bread dough sculpture is an age old art form and now has become imaginative and personalized. We will be sculpting figures, dressing them and applying the finishing touches. This is a 5 hr. workshop and will most likely be held for 2 hours on a Friday evening and 3 hrs. on a Saturday. Sign up early as we have indication that this will be a very popular course.

Microwave III

Our Microwave Cooking courses with Corry DeVries have been very popular, due to the increase of microwave ovens in the home. We hope to bring Corry back for another course next spring. Advanced techniques will be taught at this time but it is felt that beginners will also benefit from this workshop. So all you ladies (and men) who hope to get a microwave oven this Christmas, let us know if you would like to take this short course

Haileybury Ground Control course

In co-operation with the Mines Accident Prevention Association of Ontario, the Haileybury School of Mines is presenting their annual Ground Control Course on November 22, 23 and 24th. The course this year, culminates with a visit to Kidd Creek Mines Ltd. for an overview of Ground Control methods on Friday, November 25th.

Ground Control is a vital part of mine planning, using rock mechanics to eliminate ground falls and included in the course will be speakers from Denison Mines Ltd., Kidd Creek Mines, Inco and Falconbridge who will detail Ground Control

measures at their locations. An equipment demonstration on Wednesday evening will feature industrial displays of rock monitoring and various other Ground Control equipment.

The course registrants will be joined by the entire second year Mining Technology students for the Ground Control course. Designed primarily for first line supervisors, it is open to registrants from various types of industries. Brochures and information on the Ground Control course set for November 22nd to 25th, may be obtained by contacting the Haileybury School of Mines.

HAPPY 29th??
