Conference an undeniable success

Well over 300 delegates, representing 52 communities and native reserves in Northwestern Ontario were in Thunder Bay last week to attend the first major recreation conference to be held in Ontario. The four day conference entitled "Recreation Northwest" was held at the Valhalla Inn and attracted various sports, recreational and fitness oriented organizations from as far west as Kenora and east to Manitowadge and Longlac. A good cross-section of resource people from the Northwest Territories, the United States, eastern and western Canada, plus all areas in between, were on hand to provide the delegates with informative sessions on topics such as fundraising, concession management, ener-

gy conservation in recreation facilities, co-operation with Boards of Education, marketing of recreation programmes for tourism and volunteerism, just to list a few.

Recreation Northwest was designed to give groups and individuals an opportunity to share their ideas, discuss their concerns and compare their goals, as well as to assist themselves in improving their knowledge and skills in all areas of recreation.

The Conference commenced on Thursday, October 20th with an 'Exhibitors Fair' that included various agencies such as Hockey Ontario, the Ministry of Citizenship and Culture and businesses representing everything from playground equipment to T-shirts.

The sessions were officially opened by T. Kozyra of Thunder Bay on Friday morning and were wrapped up with the delegates' choice of a tour of the Canada Games Complex or a late evening Pool Party.

Saturday hosted more sessions on recreational topics, but the highlight of this day was the luncheon speaker, the Hon. Reuben Baetz, Minister of Tourism and Recreation. Saturday was wound up with a dinner and social evening and included a special guest speaker, Mr. Don Percy from C.F.R.N. radio station in Edmonton. On hand for the reception, prior to the dinner, was the Deputy Minister of Tourism and Recreation, Mr. John Sloan.

Sunday was the final

day for the conference and delegates spent the morning hours in a planning exercise and evaluation session. Lunch and closing remarks followed.

The conference was indeed a success for all those who were in attendance. Everyone was able to gain a 'hands-on' knowledge of what recreation is all about and many ideas and views were exchanged throughout the weekend. It is hoped that such an event will again be hosted in this area, as it is a vital necessity for all those who are involved in recreation. Congratulations should be extended to those numerous people on the Planning Committee who worked diligently for those many months prior to the actual conference.

Pulp and Paper Reports:

In this era of electronics and high technology, it is easy to overlook the importance of the resource industries to the Canadian economy.

Converting the forest harvest into hundreds of useful products creates more incomes than any other Canadian manufacturing activity. The forest industry still employs more people and pays more

wages than any other sector of the economy.

When it comes to earning foreign currency through exports, forest products make the largest single contribution to Canada's trade balance, more than metals, food and agriculture, fisheries and the automotive industries... combined.

Natural resources have always been the

foundation of Canada's economy. And none has contributed as much as the forest.
