Women's Employment Centre News

by JANE E. GREER

As a result of the public meetings held in Marathon and Manitowadge in October, the Women's Employment Centre have decided to offer training programmes in Manitowadge and Marathon.

The Course to be offered in Marathon is an 18 week programme titled "Women into Trades and Technology". The objective of this course is to either prepare women to enter into a skilled trade or technical training course in college or to qualify for apprenticeship or employer sponsored training or to secure employment in the trade or technology fields.

The Course to be offered in Manitowadge will be 9 weeks long and is titled "Orientation To Employment". The objective of this programme is to provide local workers with the information needed to allow them to assess the opportunities of the labour market and to understand themselves in terms of their abilities, aptitudes, temperaments, and interests.

These two courses will be of primary interest to women who wish to either enter or re-enter the labour force. For the "Women Into Trades and Technology" programme, individuals should express an interest in pursuing a non-traditional occupation.

These courses will be advertised in the local newspapers shortly and a representative from the Women's Employment Centre will be

travelling to Marathon and Manitowadge to register candidates for the courses in early January with the intention of starting the courses at the end of January.

The Women's Employment Centre offers services to women in order to assist women in overcoming any type of employment barrier.

Among the services available at the Centre, are intensive employment counselling and referral to testing, training or employment.

If you are interested in either of these two training courses, you may contact Carrie Vescio at the Women's Employment Centre by calling 623-2731 ext. 236.

For further information on this and any government related programme, please contact your nearest Northern Affairs Office located on the lower floor of the Peninsula Building in Marathon or phone 229-1153; or for locations outside of Marathon call Zenith 33160.

Bicentennial celebrations

According to the Treasury Board of Canada, the government of Canada will be contributing \$2.025 million towards Ontario's Bicentennial. Of this total, \$1.5 million will be granted to various organizations, citizens and voluntary associations for local programmes of anniversary celebrations during 1984.

A grant of \$25,000 will be made to Old Fort William at Thunder Bay to hire performing artists to enhance the 1984 Great Rendez-vous celebrations. Five federal departments and agencies also will undertake expanded programmes, costing \$500,000 as part of the anniversary celebrations.

The National Arts Centre Orchestra and theatre companies will perform in several Ontario communities in the spring and summer of 1984.

Parks Canada will present a travelling theatre presentation and exhibit on the Loyalists and pioneer beginnings to a million Ontarians in 20 communities during

the summer of 1984.

Open House Canada, a programme of the Department of the Secretary of State, will sponsor exchanges for an additional 200 young Ontarians with an equal number from New Brunswick and Quebec. Fitness Canada will join the Ontario Ministry of Tourism and Recreation in sponsoring jogging and running clinics for an estimated

700,000 Ontarians for four months in 1984.

An exhibition, "The Loyal Americans", will be circulated to museums in six Ontario communities during 1984-85 by the National Museum of Man.

The Government of Canada previously announced a grant of \$1.5 million to the Toronto International Festival as part of its contribution to Ontario's celebrations.

Plans announced...

would live within the existing north shore communities between Pays Plat and Terrace Bay.

Preliminary discussions with members of the local town councils and various government agencies have already been held, and an environmental study is underway. It is the Corporation's intent to cooperate with the residents of the area as fully as possible.

It is also their hope that the planned development at Winston Lake will be the begin-

ning of an association of mutual benefit between Corporation Falconbridge Copper and the residents of Pays Plat, Rossport, Schreiber and Terrace Bay.

If anyone wishes more information on the Winston Lake project, they are asked to direct their questions to: B.D. Simmons, Regional Exploration Manager, Corporation Falconbridge Copper, 2606 Victoria Avenue East, Thunder Bay, Ontario, P7C 1E7.

The "NEWS" will attempt to keep you posted on any further progress concerning this development.
