

Wind-rain-snow-what else?

The weather has been just crazy lately hasn't it? One day it snows - the next it rains - and the wind has been fierce. These photos were taken during the past couple of weeks when the waves on the beach were seen to go as high as even 10 feet. Wind demolished a birch tree in front of the Norwood Motel and ice seemed to be dangling on just about anything you cared to glance at. When will it all quit and we can honestly say that winter is here?

O.P.P. out after drinking drivers

The Ontario Provincial Police will be embarking on an all-out attack on drinking drivers over the Christmas and New Year's holidays.

O.P.P. officers in every corner of the province will be watching for people who take their holiday celebrations too far. Using roadside breath screening devices, the police officers will be able to test drivers they believe have been drinking.

The test devices show one of three results after a driver takes the test. If the 'pass' light shows, the driver can go. A 'warn' light means the driver may receive a 12-hour suspension; in that case, his driver's licence is seized, and he must make other arrangements for continuing his journey. If the person taking the test sees the 'fail' light, it means the start of a procedure to obtain a test with a normal breathalyzer.

"Last year, out of 538 drivers killed in fatal accidents in Ontario, 301 had been drinking," said Commissioner Archie Ferguson. "Everyone in the community has a responsibility to try to reduce this terrible statistic."

The O.P.P. has a major part to play in any work to reduce drinking and driving. Everyone can try to prevent the drinker reaching his car when his driving will be impaired. Friends and

family can use their influence to stop a loved one from taking totally unnecessary risks - both the risk of having an accident and the risk of being caught by the police.

"Moderation is the keyword - Hospitality means more than just making sure someone's glass is always full. It also means making sure that guests can get home safely," said Ferguson.

Terrace Bay council changes jobs

As the Council members complete the first year of the term, Reeve Dave Speer has announced a reshuffling of responsibility areas. The object of the exercise is to allow Councillors to expand their knowledge of specific areas of the municipal operation and to apply their talents to different types of issues.

Councillor Joe Kennedy will be taking on the Airport as a special responsibility, while retaining Public Works and the Cemetery.

Councillor George Ramsay adds Social Services and Personnel to his portfolio, keeping Police as well.

Councillor Ollie Chapman will continue in Finance and Recrea-

tion and assume new responsibility for the Fire Department.

Also on Recreation is Councillor Bill Houston, who in addition to retaining responsibility for the Library, will take on the new job of reporting to Council on Hydro matters.

Reeve Speer will continue ex-officio as a member of all committees, including special responsibility for Emergency Measures and Planning.

Reeve Speer also stated that he is pleased to announce the appointment of Mr. Dave Stewart as Council's representative on the Board of Governors of McCausland Hospital and Mr. Maurice Phil-

lion to the Board of Directors of the District Home for the Aged.

The signing officers for the municipality will remain unchanged.

On January 1st, 1984, Councillor Ollie Chapman will assume the role of Deputy Reeve, which is held on a three month rotation by each member of Council.

Reeve Speer noted that he is very satisfied with the way Council has performed during a difficult first year.

"We have a lot to accomplish yet," he said, "but I am confident that if we continue to work together as we have, the next two years will be good ones for Terrace Bay."
