## Homes for the Aged - Administrator's Annual Report

In the early months of 1983 the Board was informed by our Ontario Association that they would be holding a seminar with the objective of defining our future and the role of the Board. The Board felt that this was an opportunity to compare with other Boards in Ontario our future and our role. The Chairman, Alex Daneff and the Administrator were delegated to attend.

From more than sixty suggestions, four priority recommendations were made:

1. The Board should be the vocal point of the continuum of care facilities and programs.

2. Co-ordination of all care for the aged in your community.

3. Facilitating collaboration between various care service providers in the community.

4. Become a spokesperson for the elderly. These are noble objectives for any Board, but not realistic for our Board, when you consider we are a District Board relating to sixteen municipalities and the unorganized area, which include towns, villages and rural areas.

Of the objectives, the first is reasonable for our Board namely being a vocal point for the continuum of care facilities. We operate Birchwood Terrace which is a residential care facility and Pine-wood Court which is a Residential and extended care facility.

At the present time we are concerned about the lack of extended care beds. We are aware through the news media that Northern Affairs first made the proposal to add extended care beds to local hospitals, and that the Ministry of Health has informed the Municipalities on how to proceed with the addition. We know that the Geraldton Hospital is proceeding with preliminary building plans and a fund drive. Also, Nipigon is planning a new hospital. We must admit that our Board has not been requested to participate in this planning. At the present time we would have to say we are not the vocal point for this phase of continuum of care for seniors.

Our Board, while in favour of these projects, would appreciate the opportunity to become part of the planning process so that we could add any expertise we have in relating to this group of seniors. Also, it would assist us in our future planning.

Board appointments were delayed resulting in the Inaugural Meet-

ing being held in June. Mrs. M. Sideen who had served as a Provincial and Municipal representative for a period of ten years was elected as Chairperson with Mrs. M. Tolmonen as Vice-Chairperson. Two months later the Board was faced with the loss of Mrs. Sideen. Mrs. Sideen was well known throughout the district and the province and had served on the Ontario Advisory Board for Seniors. Many letters of condolence and tribute were received by the Board at their September meeting.

Mrs. Mary Tolmonen was elected Chairperson to complete the remaining term of office with Mrs. France Pajamaki elected as Vice-Chairperson.

In 1983 we received approval to proceed with the capital energy conservation project at Birchwood Terrace. The work will be completed in 1984 at a total cost of \$129,000.00. Two Ministries and the District Municipalities will share in the costs with the district's share being \$47,000. This will be reflected in this year's levy to the municipalities.

The work involves the replacement of the present cladding, applying 2" of insulation and aluminum siding, installing thermostats in each room, and in the main lounge, insulated drapes with circulating fans. In the program the one stage alarm system will be changed to a two stage alarm system, which is a major improvement for senior citizen homes.

At Pinewood Court our outdoor picnic shelter was completed in

time for the annual wine and cheese get-together during Senior Citizen's Week in June. It is a real asset for outdoor activities.

Inside Pinewood Court, the conversion of four plex bedrooms to doubles has now been completed. This project was initiated a number of years ago by our Maintenance Department. Seventeen rooms in the west and south wings are having privacy curtains installed thanks to our Auxiliary.

In September, T.V. Ontario visited our Birchwood Terrace Home, shooting film on seniors in the home, in Rossport and in Hurkett. The film will be shown on March 19, 1984 at 8:00 p.m.

Alex Daneff, a very active Board Member, was hospitalized in October. I have just received word from Mrs. Daneff that his illness will prevent him from resuming his regular duties for an indefinite period and he wishes to tender his resignation from the Board. Alex will be missed by the Board Members and especially the writer. We wish him well in his fight to recover from his illness.

In 1984 the Board will have the task of finding a replacement for the Administrator.

### WANTED

Reliable babysitter for 2 children two days per week. Call 824-2561. M-14

Any person interested in playing the organ/piano during Sunday services at Community Church on a scheduled basis. Please contact Pam Jones at 825-3714 or the Minister at 825-3396 for further details. M-14

notice : decision

Decision CRTC 84-141:  
Ray M. Sission;  
Schreiber, Ont.  
Pursuant to Public Notice CRTC 1983-269 dated 9 Dec. 1983, the CRTC announces that it approves the application to change the authorized distribution of the broadcasting receiving undertaking serving Schreiber by deleting the carriage of the signals of WJMN-TV (NBC) Escanaba, Mich. and WLUC-TV (CBS) Marquette, Mich. received off-air, and by adding the carriage of the signals of WJBK-TV (CBS), WTVS (PBS), WDIV (NBC) Detroit, Mich. and KOMO-TV (ABC) Seattle, Wash., and to be received via satellite from the CANCOM network.

The licensee also proposed to amend its licence by increasing the maximum monthly subscriber fee from \$15.50 to \$19.87 to cover the costs of providing the CANCOM services noted above. This part of the application is approved in part. The Commission approves an increase in this fee to \$19.56. This \$4.06 increase is justified based on the charge to be paid by the licensee to CANCOM for these new services and to cover the direct incremental costs related to the exhibition of the CANCOM signals, and is in accordance with the guidelines for rate increases associated with the addition of the CANCOM "3 plus 1" U.S. signals, set out in Public Notice CRTC 1983-109.

The Commission notes that the signal of KOMO-TV (ABC) is not yet distributed by CANCOM. Accordingly, the licensee may only charge \$3.05 of the increase when the CBS, NBC and PBS signals are available to subscribers and the remaining \$1.01 at such time as the ABC signal is provided.

Further, the Commission has determined that the remaining portion (0.31) of the proposed rate increase has not been justified by the licensee and it is, accordingly, denied.
