Blown out of the rink in their first game with Manitowadge, the boys went out of further com-

# Costa's and Chargers Victorious

Two exciting games of broomball were played on Sunday, March 11 at the Terrace Bay Arena. Both were semi-final games.

In the men's game the "Chargers" were victorious and eliminated "Jean Saw Sales" from further competition.

Jean Saw Sales lit up the scoreboard first, with a goal by John Deleo. Toivo Hirt evened the score and Rick Sitko scored the winner for the Chargers at 4:21 of the second period. There were only two penalties assessed, one to each team.

"Costa's" won the

women's game over the "Selects" with a single goal by Diane Pyhtila at 2:50 of the first period. One penalty was given to a Costa's player. Their semi-final series is now tied at one game each. The winner will play Zap's Auto Glass "Ice Breakers" in the final.

Broomball is played on Sundays from 5 p.m. to 8 p.m. at the Terrace Bay Arena. If you have never seen the game, come out and watch. Many of last year's "first-time" spectators are playing in the league this year.

## Meet the "Stars"

After a very slow start due to the arena ice not functioning and added financial burdens, the Schreiber Junior "B" North Stars finally got underway thanks to generous donations from local businesses and the hard work of faithful supporters.

The North Stars will

be hosting the "Western Junior 'b'" Tournament in Schreiber April 13, 14 and 15. The team represents all communities on the North Shore. Meet the "Stars"!

## Letter to the Editor

### "Are seat belts the answer?"

Dear Editor:

I'm interested in your two articles regarding seat belts in school buses.

1. Can you picture a bus driver with a load of children all fastened into their seats by seat belts? There's bound to be panic among them if involved in an accident and in their haste cannot get the belt buckle to open.

2. The bus driver must assist the children and try to get them to safety, especially in the junior grades. That would be an enormous task - most of them crying and screaming. I do not envy the bus driver.

3. I agree with better seat backs.

4. Children could buckle on the belts as instructed and advised by the driver but will

they keep them on?

5. When the driver returns to his station, a dollar to a doughnut, many students would release the buckles.

6. What about the possibilities of cutting the belts, sticking gum or some substance into the buckles. One never knows!

7. There aren't belts on travelling buses.

8. I can't see that the recommendations for belts are justifiable. True, they have their good or bad points but they add more responsibilities to a driver.

9. So we come to the conclusion, "Are Seat Belts the Answer?"

There will have to be more research on this problem before acting on a decision of belts in school buses.

Sincerely,  
Anne Todesco
