## 1984 Summer Hockey School

Superior Hockey School's Director, Dave Siciliano, has indicated that the 1984 summer hockey school is ready for another successful summer. The number of boys per group has been decreased to 30 plus 4 goalies to allow more space on the ice and in the dressing rooms. This will also cut the teacher-student ratio down.

The school has 2-two week sessions, July 30 - August 11th and August 13-25th and two 1-week sessions, July 23-28 and August 27 - September 1st, which is the advanced skills programme.

Over the past five years the school has instituted a very strong instructional programme that has improved each player significantly. The quality of instruction and the emphasis on skill development have been key elements of success.

Most of the instructors are returning, giving the programme a wealth of practical experience blended with good fundamental teaching techniques. Our instructors are professional hockey players, coaches and teachers. They, combined with the programme content can be very instrumental in giving your boy the best instructional and enjoyable experience anywhere.

The advanced skills programme is an innovative programme to help those players who are of the all-star or representative team calibre. Only players with these qualities are allowed into this one

week session. They are grouped 10-12, 13-14 and 15-16 years of age. Only 20 players plus 3 goalies/group are admitted. They will receive advanced instruction in team play concepts and experience professional-like practices.

The instructors in the programme are Brian DePiero, Ken Clifton, Doug Colbon, Dan Moro, Ian MacRae, Larry Krawchuk, Ab Slivinski, Mike Busniuk, Rick St. Croix, Dave Fitzpatrick, Lyn Jorgenson, Dave Watson, Bob Gervis, Lorne Allard, Sean Donohue, Brian McLeod, Bob DePiero, Rob Perger and Alex Dampier, Vince Friyia, Kim Gellert, Clyde Tuyle, Frank Gonzalez, and Jack Sinclair. The school's on site director is Jamie McDonald who is a player-coach in Spain this season. Most of our instructors have been with the school over the last 6 to 8 years.

The daily ice programme consists of two hours of instruction in the morning - one hour of power skating and one hour of skill instruction. The skating session emphasizes the necessary skills involved with striding forward and backward to stopping, pivots, sharp turns, cross-overs, and much more. The second hour is devoted to teaching skills such as passing, shooting, stickhandling, checking and also game situations such as 1 vs. 1, 2 vs. 1, and 3 vs. 2. In the afternoon the boys are equally distributed on two teams and learn some basics of breakouts and

forechecking as a unit and then scrimmage. The scrimmage provides an opportunity to practice their skills while enjoying themselves. The scrimmages are videotaped and played back to the boys to point out the positive and negative aspects of team play. A colour VTR system is used providing a great learning experience.

Besides the ice programme there is an off-ice programme both in the classroom and on the field. The classroom sessions are designed to teach the basic concepts through the use of films, videotapes of the scrimmage and chalk talks.

The field programme is demanding because of our emphasis on total conditioning, but fun in its approach. Games such as soccer, baseball, track and field and practice shooting are conducted along with daily running and calisthenics.

Each group has a councillor who is with the boys all day and helps on the ice, in the field, and in the classroom. The boys usually relate very closely with the councillor and thus a rapport and a friendship is developed besides maintaining discipline.

The fee includes a professional hockey school jersey, a hot dog feed with the presentation of awards, crests, group pictures, certificates and evaluations plus on and off ice test results. Most of the parents attend the final game on Saturday and have the opportunity to discuss their boy's progress

I'll tumble for ya! Recreational gymnasts and Kindergym participants perform during break at weekend Gym Meet.

with the instructors.

The boys will have a pre-test and post-test conducted on the ice using the C.A.H.A. Ever-ready Battery of Skills Tests. These tests have been designed with norms so boys will be able to compare their results with the norm across the country. Also, the Canada Fitness Test will be conducted in the field
