

The Canadian Save the Children Fund

The Canadian Save the Children Fund (CANSAVE) is expanding its volunteer network in Northwestern Ontario, to introduce CANSAVE to the com-

munities of Schreiber and Terrace Bay. There will be a Public Information Meeting on Thursday, April 26th from 8-10 p.m. in the Conference Room at the Ter-

race Bay Rec Centre. This meeting is not only intended to recruit individuals who may be interested in volunteering for CANSAVE, but also to inform individu-

als about the development work that CANSAVE does. Joan Summers, the Ontario Regional Director will be present to talk about CANSAVE's overseas programmes, as well as volunteer opportunities in Canada.

provements and increased harvest are bringing about better nutrition for children and adults.

In Peru, day-care facilities are increasing safety for young children of working parents and preparing them for entry into school;

And in Grenada, the furniture building programme is bringing employment to single mothers so that they can better provide for their children.

In order to fund these programmes, CANSAVE volunteers in Canada perform many fund raising activities from nation-wide campaigns such as the Christmas Card Sales and Penny Appeal campaigns in retail stores, to local fund raising events such as Craft Sales, Bridge Club events, fund raising dinners, and other special events.

CANSAVE volunteers also play an educational role in their communities. Through our Valentine Tree programme, CANSAVE volunteers work with primary school students and teachers to bring the realities of "Lesser Developed Countries" to our awareness.

If anyone is interested in becoming involved with CANSAVE to support these development activities in the Third World, or wants to find out more about overseas programmes, the Information Meeting will be at the Terrace Bay Recreation Centre in the Conference Room on April 26th from 8:00 to 10:00 p.m.

CANSAVE is a Canadian, voluntary, international, development agency which funds community development and child welfare programmes in 25 underdeveloped countries. CANSAVE has recently changed its focus from Individual Child Sponsorship to Community Sponsorship. CANSAVE has converted to Community Sponsorship because it believes that the sincere desire of sponsors and donors is to help the maximum number of children as effectively as possible. Community sponsorships enable families and communities in the Third World to combat problems which have threatened the well being of their children for generations.

The beneficiary is not ONE child, but ALL children within a project area. All projects which improve a community's environment, benefit the children who live there. The list of projects is endless and depends always on local circumstances.

For example: In Haiti, the installation of potable water is helping to eliminate dysentery type diseases which formerly killed many children under five.

In India, crop im-

provements and increased harvest are bringing about better nutrition for children and adults.

In all, thank you for entertaining us in such a delightful manner.

A Festival with Flare!

The 13th Annual Northern Lights Festival Boreal is being held on July 6, 7 and 8th at Bell Park amphitheatre in Sudbury, Ontario. It is a non-profit organization dedicated to promoting music, arts, crafts, storytelling and drama in Sudbury and far beyond. This outdoor bilingual festival is one of the oldest and largest multicultural events in Canada.

Bell Park is the location of this year's festival and is situated in the heart of Sudbury on the shores of beautiful Lake Ramsey right next to the new Science North Centre.

There's something for everyone's scheduling during this gala event. Included will be daytime activities with continuous workshops on music, storytelling, drama, arts and crafts; a variety of musical concerts; children's play

areas and workshops; displays and workshops which will feature everything from print making and quilting to pottery, batik work and portraits and landscapes.

If you're famished, there will be ethnic and homemade food concessions.

Nighttime activities provided will include music in the line of folk, classical, country, jazz, contemporary rock and rhythm and blues. Renowned talent from Sudbury and all across Canada will be performing under clear, Northern skies and the Northern Lights.

There's ample parking for cars and buses, large shaded grassy picnic and rest areas, first-aid stations, swimming at a sandy beach, boat launches, nature trails, flower gardens, and is convenient to bus stops. For a great musical experience, please plan to attend.

Letters to the Editor

Skating Carnival Enjoyed!

Dear Karen:

I had the pleasure of attending the Figure Skating Carnival last Friday night.

Congratulations to all the skaters for their wonderful performan-

ces; to Paul Wirtz for his dedication to teaching; to Joan Clark and her committee of mothers who spent a lot of time either for arranging the music or making costumes, which were just

fabulous, and to the fathers for their behind the scenes work.

All in all, thank you for entertaining us in such a delightful manner.

Saying YES to the Executive of the C.W.L.

I am very busy;
I fret and groan today -
Too much to do! Too little time!
Where is my time to play?

Sometimes too many meetings,
Must I go out again tonight??
Oh Lord, you know I am tired ...
Please tell me what is right!

He asks me very softly
"Do you believe in what you do?
Will you continue to serve,
If your spirit I renew?"

Yes! I answer confidently,
I believe in the principles of the League
To serve God and Canada,
I'd like to do without fatigue!

Jesus has renewed my spirit
His peace is what I've asked,
To witness to His love and joy
In whatever position or task.

Heart to Heart Bonspiel

continued from page 5

clubs in Northwestern Ontario with Real Four-nier of Longlac raising over \$3,000 himself.

The final funds raised locally by the Heart Foundation was \$88,000, a quarter of which came from the "Heart to Heart" bonspiel. The money comes from the enthusiasm of the curlers who enter, and that enthusiasm has been unbelievable.

In order to ensure the success of the spiel this year, the organizing committee is hoping to lure the last 10 Brier winning skips (1973 to 1983) to compete. Five of the 10 have played in the spiel already and they include Ed Lukowich of Calgary, Kerry Burtnyk and Jim Ursel of Winnipeg along with local skips Al Hackner and Bill Tetley.

ROOM and BOARD

Friendly accommodations and meals required in Schreiber or Terrace Bay from late June to Labour Day, for male student working in Schreiber.
